PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT is made and entered into as of the first day of February, 2009 by and between TecumsehPower Company, a Delaware corporation (hereinafter "Assignor"), and Husqvarna Consumer Outdoor Products, N.A., Inc., a Delaware corporation with offices at 1030 Stevens Creek Rd., Augusta, GA 30907 (hereinafter "Assignee").

WHEREAS, Assignor and Assignee are parties to that certain Asset Purchase Agreement entered into as of January 16, 2009 (the "Purchase Agreement");

WHEREAS, the Assignor is the owner of all right, title, and interest in and to the patents and patent applications appearing on Schedule "A" hereto (hereinafter the "Patents");

WHEREAS, the Assignor is willing to assign to Assignee the Assignor's rights in such Patents; and

WHEREAS, the Assignee desires to obtain ownership of the Patents in accordance with the terms and conditions set forth in this Assignment and the Purchase Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor, intending to be legally bound hereby, conveys, assigns, transfers, and sets over to Assignee, its successors, legal representatives and assigns, Assignor's entire right, title, and interest in and to the Patents; as well as all divisions, continuations and continuations-in-part thereof; and all patents which may be granted thereon and all reissues and extensions of any of the foregoing; and all applications for patents which may hereafter be filed for inventions embodied by said Patents, and all patents which may be granted for said inventions; and all extensions, renewals and reissues thereof and all rights of priority based upon the filing of said pending applications which are created by any law, treaty or international convention and the full right to sue for past, present or future infringement of any of the Patents, these rights to be held and enjoyed by the Assignee, its successors and assigns, as fully as the same would have been held and enjoyed by the Assignor had this assignment not been made; and Assignor hereby authorizes and requests the Commissioner of Patents of the United States, and any official of any country or countries foreign to the United States, whose duty is to issue patents on any such applications as aforesaid, to issue all patents for said inventions to Assignee, its successors, legal representatives and assigns, in accordance with the terms of this instrument.

And for the consideration aforesaid, Assignor agrees that it will, upon request, and at Assignee's sole expense and at no expense to Assignor, communicate to said Assignee, its successors, legal representatives and assigns, any material facts known to it respecting said pending applications, and testify in any legal proceeding, execute additional lawful papers, all divisional, continuing and reissue applications, make all rightful oaths and generally do everything reasonably necessary to aid said Assignee, its successors, legal representatives and assigns, to obtain and enforce any attendant rights in any and all countries and generally do all other lawful acts reasonable and necessary to give effect to and to record this Assignment. Assignor agrees that it will execute said additional lawful papers, said divisional, continuing and reissue applications, and make said rightful oaths at no expense to Assignee, provided, however that, Assignee shall bear the expenses associated with the recordation of this Assignment, in any

country, including the expenses associated with obtaining any required Apostilles and/or other certifications.

Assignor does hereby covenant that it has the full right to convey the entire interest herein assigned, and that Assignor has not executed, and will not execute, any agreement in conflict herewith.

A handwritten signature in black ink, appearing to be 'AS' or similar, located in the bottom right corner of the page.

IN WITNESS WHEREOF, Assignor has caused this instrument to be signed by a duly authorized corporate officer effective as of the date first indicated above.
