and have filed a provisional application for a United States patent disclosing and identifying the above invention on 12 March 2008 as Application No. **61/035,989**, and have filed a non-provisional application for a United States patent disclosing and identifying the above invention on 12 March 2009 as Application No. **12/403,175**, OR are filing such an application herewith, and have executed an oath or declaration of inventorship for such non-provisional application on:

- (1) the 1st day of April, 2009;
- (2) the 1st day of April, 2009; and
- (3) the _____ day of _____, 2009.

(hereinafter termed "applications"); and

WHEREAS, Vertical Circuits, Inc., a corporation of Delaware, having a place of business at 10 Victor Square, Scotts Valley, CA 95066 (hereinafter termed "Assignee"), is desirous of acquiring the entire right, title and interest in and to said applications and the invention disclosed therein, and in and to all embodiments of the invention, heretofore conceived, made or discovered by said Inventor (all collectively hereinafter termed "said invention"), and in and to any and all patents, inventor's certificates and other forms of protection (hereinafter termed "patents") thereon granted in the United States and foreign countries.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said Inventors to have been received in full from said Assignee:

1. Said Inventors do hereby sell, assign, transfer and convey unto said Assignee the entire right, title and interest (a) in and to said applications and said invention; (b) in and to all rights to apply for foreign patents on said invention pursuant to the International Convention for the Protection of Industrial Property or otherwise, including the right to claim priority from the applications; (c) in and to any and all applications filed and any and all patents granted on said
