THIS ASSIGNMENT (the "Assignment") from Syntax-Brilliant Corporation, a Delaware corporation, Syntax-Brilliant SPE, Inc., a Delaware corporation, and Syntax Groups Corporation, a Delaware corporation (collectively, "Assignor"), to Emerson Radio Corp., a Delaware corporation ("Assignee"), is entered into and effective as of this 1st day of May 2009.

WHEREAS, Assignor is the sole owner of the entire right, title and interest in and to the United States patents and applications listed on Schedule A attached hereto, as well as all foreign patents, registrations, patent applications, and applications for registration listed on Schedule A (the "Patents"); and

NOW, THEREFORE, to all whom it may concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

Assignor hereby irrevocably and unconditionally sells, assigns, transfers and sets over to Assignee its entire right, title and interest in and to the Patents, including without limitation the patents, registrations and applications set forth in Schedule A, the right to sue, recover damages, and obtain injunctive relief for past, present, and future infringement, misappropriation, or any other violation of the Patents, the right to make, to use and to vend, the Patents in the United States and for all foreign countries, including any reissues, divisionals, continuations, continuations in part, reexaminations, extensions, revisions or improvements thereof and foreign equivalents thereof, and including the subject matter of all claims which may be obtained therefrom, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made; together with all income, royalties, damages or payments due or payable as of the date hereof or thereafter, including, without limitation, (a) all rights, interests, claims and demands recoverable in law or equity that Assignor has or may have in profits and damages by reason of past, present or future infringement or other unauthorized use of the Patents with the right to sue for, and collect the same, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns, or other legal representatives and (b) all rights to apply for patents and registrations in foreign countries that Assignor has or may have with respect to any of the foregoing with full benefit of such priorities as may now or hereafter be granted to it by law or treaty, including any international convention.

- C. to do all things legally permissible, required or reasonably deemed by Assignee to be required to recover and collect the Patents and to use Assignor's name in such manner as Assignee may reasonably deem necessary for the collection and recovery of same,

Assignor hereby declares that the foregoing powers are coupled with an interest and are and shall be irrevocable by Assignor.

At any time or from time to time after the date hereof, Assignor shall, at the request of Assignee and at Assignee's sole expense, execute and deliver any further instruments or documents and take all such further action as Assignee may reasonably request in order to evidence the consummation of the transactions contemplated by this Assignment.

Further, Assignor agrees that, upon request and at Assignee's sole expense, it and its legal representatives and assigns shall do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for maintaining, reissuing or enforcing the Patents.
