PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (this "Assignment") is made and entered into as of April 24, 2009 ("Effective Date") by and between **Propex Geosolutions Corporation**, a Delaware corporation, with its principal office at 6025 Lee Highway, Chattanooga, Tennessee 37421, USA ("Assignor"), and **Propex Operating Company, LLC**, a Delaware limited liability company, with its principal office at 6025 Lee Highway, Suite 425, Chattanooga, Tennessee 37421, USA ("Assignee").

WHEREAS, Assignor desires to sell, transfer, assign, convey and deliver to Assignee, and Assignee desires to purchase, acquire, assume and receive from Assignor, all right, title and interest in and to the United States patents and patent applications identified and set forth on Schedule A, and the foreign patents and patent applications identified and set forth on Schedule B (the "Patents").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor, intending to be legally bound, does hereby sell, assign and transfer to Assignee the entire right, title and interest, in and to the Patents owned by Assignor, including all divisions and continuations thereof, all rights to claim priority based thereon, all rights to file foreign applications on the inventions and claims of such Patents, and all letters patents and reissues thereof, issuing for the patent applications included in the Patents in the United States of America and in any and all foreign countries, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made; together with all income, royalties, damages or payments due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Patents, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

Assignor hereby agrees to execute upon the request of Assignee such additional documents as are necessary to register and otherwise give full effect to the rights of Assignee under this Assignment in and to the Patents worldwide, including all documents necessary to record in the name of the Assignee the assignment of the Patents with the United States Patent and Trademark Office and, with respect to any equivalent foreign rights, with any other appropriate foreign or international office or registrar.

Assignor hereby requests the Commissioner of Patents and Trademarks and the corresponding entities or agencies in any applicable foreign countries or jurisdictions to record Assignee as the assignee and owner of the Patents.
