Form of Assignment

- (1) **INFINIX CORPORATION** a private limited company incorporated in Delaware with an address at 666 Plainsboro Road, Suite 1022, Plainsboro, New Jersey, 08536, United States of America (“**the Assignor**”); and
- (2) **HARRINGTON TECHNOLOGIES LLC** a limited liability company incorporated in Delaware with an address at 1209 Orange Street, Wilmington, New Castle, Delaware, 19801, United States of America (“**the Assignee**”).

For good and valuable consideration, the receipt of which is hereby acknowledged, the Assignor hereby sells, assigns, transfers and conveys to the Assignee or its nominees, all right, title and interest that exists today and may exist in the future in and to any and all of the following (collectively the “Patent Rights”):

- (a) the provisional patent applications, patent applications and patents listed in Annex 1 (“the Patents”);
- (b) all patent applications and patents to which any of Patents directly or indirectly claims priority or for which any of the Patents directly or indirectly forms a basis for priority or which were co-owned applications that incorporate by reference, (or are incorporated by reference into) any of the Patents;
- (c) all re-issues, re-examinations, requests for continuing examinations, continuations, continuations in part, divisions and registrations of any item in categories (a) and (b) above;
- (d) all foreign patent applications, patents and counterparts relating to any item in categories (a), (b) and (c) above;
- (e) all items in any of the foregoing categories (b) through to (d), whether or not expressly listed as Patents in Annex 1 which have been withdrawn prior to grant or which have lapsed, been abandoned or deemed withdrawn;
- (f) all inventions, invention disclosures and discoveries described in any item in any of the categories (a) through to (e) that (i) are included in any claim in the Patents and/or any item in the foregoing categories (b) through (e), (ii) are subject matter capable of being reduced to a patent claim in a reissue or reexamination proceedings brought on any of the Patents and/or any item in the foregoing categories (b) through (e), and/or (iii) could have been included as a claim in any of the Patents and/or any item in the foregoing categories (b) through (e) above;
- (g) all rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections or other governmental grants or issuances of any type related to any item in any of the categories (a) through to (f) above, including under the Paris Convention for the Protection of Intellectual Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement or understanding;

- (h) all causes of action and other enforcement rights under, or on account of, any of the Patents and/or any item in any of the categories (b) through to (g) above, including all causes of action and other enforcement rights for damages, injunctive relief and any other remedies of any kind for past, current and future infringement; and
- (i) all rights to collect royalties or other payments under or on account of any of the Patents and/or any item in any of the categories (b) through to (h) above.

The Assignor represents, warrants and covenants that:

- (a) Assignor has the full power and authority and has obtained all third party consents, approvals and/or other authorisations required for it to assign the Patent Rights to the Assignee;
- (b) Assignor owns and, by this document, assigns to the Assignee all right, title and interest to the Patent Rights, including all right, title and interest to sue for infringement of the Patent Rights;
- (c) Assignor has obtained and properly recorded previously executed assignments for the Patent Rights as necessary to fully perfect its rights and title to them in accordance with the governing law and regulations in each relevant jurisdiction;
- (d) Assignor has not previously granted or agreed to grant any option, license or other right in or over any of the Patent Rights to any third party or assigned or agreed to assign any of the Patent Rights to any third party or created or agreed to create any lien, mortgage, charge or other security interest or encumbrance in or over any of the Patent Rights;
- (e) there are no actions, suits, investigations, claims or proceedings threatened, pending or in progress relating in any way to any of the Assigned Rights.

Assignor hereby authorises the respective patent office or government agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted on any of the Patent Rights in the name of the Assignee.

The Assignor will, at the reasonable request of the Assignee (and without requiring any further consideration for doing so), execute, sign and deliver all such instruments and documents and do all such things as may be reasonably necessary to assist the Assignee in obtaining, perfecting, sustaining and/or enforcing the Patent Rights on a country by country basis.

The terms and conditions of this Assignment of Patent Rights will inure to the benefit of the Assignee, its successors, assigns and other legal representatives and will be binding upon the Assignor, its successors, assigns and other legal representatives.
