CONFIRMATORY ASSIGNMENT OF PATENT RIGHTS

For valuable consideration, the receipt and sufficiency of this Confirmatory Assignment of Patent Rights (the "Assignment") which is hereby acknowledged, on this 17th day of May 2009, Eric J. Gausmann, residing in Downers Grove, Illinois, Kalwant S. Grewal, residing in Washington Township, New Jersey, and Gary E. Herman, residing in South Orange, New Jersey (together the "Assignors"), to ensure that the assignment dated July 15, 1986 (Gausmann) and July 18, 1986 (Grewal and Herman), and filed with the United States Patent and Trademark Office on July 21, 1986 at Reel/Frame 004583/0409, is completed, hereby sell, assign, and transfer to Bell Communications Research, Inc., a Delaware company ("Assignee"), the full extent of all right, title, and interest in and to any and all of the following (collectively, the "Rights"):

1. Patent Application Serial No. 06/888,733 filed on July 21, 1986 (the "Application");
2. Continuation in Part application Serial No. 07/363,298, filed on June 6, 1989, which issued as the U.S. Patent 5,230,073 (the "U.S. Continuation in Part");
3. All inventions claimed or described in any or all of the Patent, the U.S. Continuation in Part, or the Application (collectively, "the Inventions");
4. All rights with respect to the Inventions, including all U.S. patents or other governmental grants or issuances that may be granted with respect to the Inventions, from the Application and U.S. Continuation in Part, or from any direct or indirect divisionals, continuations, continuations-in-part, or other patent applications claiming priority rights from the Patent, the Application, or the U.S. Continuation in Part ("Potential Patents");
5. All reissues, reexaminations, extensions, or registrations of the Patent or Potential Patents;
6. All non-United States patents, patent applications, and counterparts relating to any or all of the Inventions, the U.S. Continuation in Part, the Patent, the Application, or Potential Patents, including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances ("Foreign Rights"), and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
7. The right to claim priority rights deriving from the Application;
8. All causes of action and remedies related to any or all of the U.S. Continuation in Part, the Patent, the Inventions, the Application, Potential Patents, or Foreign Rights (including, without limitation, the right to sue for past, present, or future infringement, misappropriation or violation of rights related to any of the foregoing and the right to collect royalties and other payments under or on account of any of the foregoing); and
9. Any and all other rights and interests arising out of, in connection with, or in relation to U.S. Continuation in Part, the Application, the Patent, the Inventions, the Application, Potential Patents, or Foreign Rights.

Assignors will not sign any writing or do any act conflicting with this Assignment, and, without further compensation, will sign all documents and do such additional acts as Assignee, its successors, legal representatives, and assigns deem necessary or desirable to perfect enjoyment of the Rights or perfect or defend title to the Rights. Assignors request the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models, or other governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives, and assigns and will be binding upon Assignors, their successors, legal representatives and assigns.
