ASSIGNMENT

S-1800

WHEREAS, I, Åsa Wheelock (the "Assignor"), have made an invention entitled CUMULATIVE TIME-RESOLVED EMISSION 2-DIMENSIONAL GEL ELECTROPHORESIS, described in a Provisional Application (hereinafter the Application) and executed and filed in The United States Patent & Trademark Office on May 19, 2008 as Serial No.61/054,300

WHEREAS, Hikari Bio AB, a corporation duly organized and existing under the laws of the Country of Sweden and having a place of business at Gyllenborgsgatan 5, Stockholm, Sweden for the benefit of itself, its successors and assigns; (the "Assignee"), is desirous of acquiring the entire right, title and interest in the invention, all inventions disclosed in the Application, the Application, and any non-provisional patent application claiming priority from the Application, any and all Letters Patent of the United States and of all other countries including any divisional, continuation, extension, re-examination, renewal and reissue thereof which may be granted on thereon (the "Patents");

NOW THEREFORE, for good and valuable consideration paid to the Assignor by the Assignee, the receipt of which is hereby acknowledged, the Assignor does hereby sell, assign and transfer to the Assignee the entire right, title and interest in and to the invention, all inventions disclosed in the Application, the Application and the Patents;

TO HAVE, HOLD AND ENJOY the invention, all inventions disclosed in the Application, the Application and the Patents assigned hereby to the Assignee for its own use and benefit to the end of the term or terms for which the Letters Patent may be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor had this assignment not been made.

THE ASSIGNOR HEREBY authorizes and requests the Commissioner of Patents and Trademarks of the United States and the appropriate officers of all foreign patent offices to issue the Patents to the Assignee in accordance with the terms of this instrument.

THE ASSIGNOR HEREBY further agrees to execute and sign without further consideration any other legal document, assignment and any divisional, continuation, extension, re-examination, renewal, reissue, or other application in and for all patents that may be appropriate and may be deemed necessary by the Assignee fully to secure to the Assignee its interests as aforesaid in the invention, all inventions disclosed in the Application, the Application and the Patents.

THE ASSIGNOR further covenants and agrees that it will at any time upon request communicate to the Assignee or its legal representative, any facts known to it relating to the invention, all inventions disclosed in the Application, the Application and the Patents and will testify truthfully as to the same in any interference, litigation or any other proceeding re-related thereto when requested to do so.

AND THE ASSIGNOR does hereby covenant for the Assignor and its legal representatives that it has not assigned or granted any license to make, use or sell the invention and that it will not purport to assign, license or execute any instrument to that effect in conflict with this assignment.

IN WITNESS WHEREOF, I have hereunto set my hand and seal on the date set forth below.
