ASSIGNMENT OF PATENTS

This assignment of Patents ("Assignment") is effective as of November 28, 2008.

WHEREAS, Carlyle, Inc., a Washington corporation ("Assignor") is the owner of all right, title and interest in and to the patents and any patent applications set forth on Schedule A hereto (the "Patent Properties"); and

WHEREAS, Assignor desires to assign to Net IG Assets, LLC, a Washington limited liability company ("Assignee"), and Assignee desires to acquire from Assignor, said Patent Properties.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by Assignee, Assignor hereby sells, assigns, transfers and conveys to Assignee:

Assignor's whole and entire right title and interest in and to the Patent Properties, for the territory of the United States and its possessions and territories and all foreign countries, including, but not limited to, improvements, provisionals, non-provisionals divisions, continuations, continuations in part, revisions, thereof, along with all rights of priority created by said Patent Properties under any treaty relating thereto, and all registrations and applications for registration for the foregoing and the rights to secure renewals and extensions therefore; and

the right to sue for and collect the same for its own use and benefit or for the use and benefit of its legal representatives with respect to all past, present and future damages;

said Patent Properties to be held and enjoyed by the above-named Assignee, for Assignee's own use and benefit, and for Assignee's legal representatives to the full end of the term or terms of the Patent Properties rights, as fully and entirely as the same would have been held by the undersigned Assignor had this assignment and sale not been made.

This assignment shall be governed by and construed in accordance with the laws of the state of New York, U.S.A., without giving effect to the principles of conflicts of laws thereof.
