EXECUTION COPY

ASSIGNMENT OF PATENTS

ASSIGNMENT OF PATENTS made as of the 15th day of June, 2009, by BearingPoint, Inc., a Delaware corporation with its principal place of business at 100 Crescent Court, Suite 700, Dallas, Texas 75201 ("Assignor"), to PricewaterhouseCoopers LLP, a Delaware limited liability partnership with its principal place of business at 300 Madison Avenue, New York, New York 10017 ("Assignee").

RECITAL

Assignee and Assignor are parties to an Amended and Restated Asset Purchase Agreement dated as of May 28, 2009 (the "Agreement"), pursuant to which Assignor has agreed to sell to Assignee and Assignee has agreed to buy from Assignor the Acquired Assets (as defined in the Agreement), including without limitation certain patents and patent applications of Assignor. Pursuant to the Agreement, Assignor has agreed to execute and deliver such other instruments of sale, transfer, conveyance and assignment and to take such actions as Assignee may reasonably request to effectively transfer, convey and assign to Assignee on the terms set forth in the Agreement, and to confirm Assignee's rights to, title in and ownership of, the Acquired Assets pursuant to the Agreement, and to place Assignee in actual possession and operating control of the Acquired Assets.

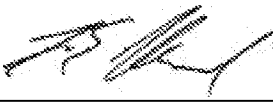

In accordance therewith, Assignor desires to transfer and assign to Assignee, and Assignee desires to accept the transfer and assignment of, all of Assignor's right, title and interest in, to and under Assignor's patents and patent applications listed on Schedule A annexed hereto and incorporated herein by reference (all of the foregoing being referred to herein as the "Patents").

NOW, THEREFORE, Assignor, for and in exchange for the payment of the purchase price set forth in the Agreement, the receipt of which is hereby acknowledged, does hereby transfer and assign to Assignee, and Assignee hereby accepts the transfer and assignment of, all of Assignor's right, title and interest in, to and under the Patents, all rights to sue for infringement of any Patent, whether arising prior to or subsequent to the date of this Assignment of Patents, and any and all confirmations, confirmations-in-part and divisionals thereof, and any and all patents issuing therefrom, including any and all extensions, reissues and reexaminations thereof, that may hereafter be secured under the laws now or hereafter in effect in the United States, the same to be held and enjoyed by the said Assignee, its successors and assigns from and after the date hereof as fully and entirely as the same would have been held and enjoyed by the said Assignor had this Assignment of Patents not been made. The Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States to issue such patents as shall be granted upon said patent rights to Assignee, its successors and assigns.

Except to the extent that federal law preempts state law with respect to the matters covered hereby, this Assignment of Patents shall be governed by and construed in accordance with the laws of the State of New York without giving effect to the principles of conflicts of laws thereof.

IN WITNESS WHEREOF, Assignor has caused its duly authorized officer to execute this Assignment of Patents as of the date first above written.

BEARINGPOINT, INC.
