PATENT ASSIGNMENT

This **PATENT ASSIGNMENT** (this "Assignment") is executed and delivered as of June 1, 2009, by and among Zohar Waterworks LLC, a Delaware limited liability company ("Zohar Waterworks"), B2 International Corporation, a Delaware corporation ("B2" and, together with Zohar Waterworks, "Assignors"), and LVD Acquisition, LLC, a Delaware limited liability company ("Assignee").

Recitals

A. Pursuant to that certain Loan and Security Agreement, dated as of February 10, 2005 (as amended, restated or otherwise modified from time to time, the "Oasis Credit Agreement"), among Oasis Corporation ("Oasis"), Sunroc LLC ("Sunroc" and together with Oasis, the "Oasis Borrowers"), the guarantors party thereto (the "Oasis Guarantors"), the lenders party thereto (the "Oasis Lenders"), Wachovia Capital Finance Corporation (Central), as agent for the Oasis Lenders (in such capacity, the "Oasis Agent"), and Wachovia Capital Markets, LLC, as Sole Lead Arranger and Bookrunner, and certain other documents, instruments and agreements executed pursuant thereto or in connection therewith (collectively, the "Oasis Related Agreements" and together with the Oasis Credit Agreement, the "Oasis Credit Documents"), the Oasis Lenders have made loans to, and made other financial accommodations to or for the benefit of, the Oasis Borrowers (all such loans and other financial accommodations being herein referred to collectively as the "Oasis Loans"). The Oasis Loans and all other obligations of Oasis Borrowers to the Oasis Lenders, howsoever created, arising or evidenced (collectively, the "Oasis Debt"), were secured by certain assets of the Oasis Borrowers and the Oasis Guarantors (collectively, the "Oasis Collateral").

B. The Oasis Collateral included all of the patents, applications to register patents and registrations of renewals, extensions and reissues of the foregoing owned by the Oasis Borrowers and/or the Oasis Guarantors (the "Oasis Patents").

C. As a result of continuing defaults by the Oasis Borrowers in the performance of the Oasis Debt, the Oasis Lenders agreed with the Oasis Borrowers to sell and transfer to Zohar Waterworks, in a private sale, all of the Oasis Collateral in partial satisfaction of the Oasis Debt under Section 9-610 of the relevant Uniform Commercial Code, pursuant to that certain Foreclosure Agreement, dated as of August 26, 2005, among the Oasis Borrowers, the Oasis Guarantors, Oasis Lenders, the Oasis Agent and Zohar Waterworks.

D. Assignors are parties to that certain Asset Purchase Agreement (the "Purchase Agreement") by and among Assignors and Assignee, dated as of April 2, 2009.

E. Pursuant to the Purchase Agreement, Assignors agreed to assign to Assignee all of their right, title and interest in and to all patents, including, without limitation, those listed in Schedule A attached hereto, owned by Assignors, including the Oasis Patents (collectively, the "Patents").

F. Assignee desires to acquire the Patents and the goodwill associated therewith.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound hereby, agree as follows:

Agreement

1. Defined Terms. Capitalized terms used but not defined herein shall have the meanings set forth in the Purchase Agreement.

3. Recordation. Assignors authorize and request the United States Commissioner of Patents and Trademarks and any other similar governmental authority to record Assignee as the assignee and owner of the Patents, and issue any and all registrations thereon to Assignee, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.
4. Further Assurances. Assignors hereby agree to execute, acknowledge and deliver, upon the request of Assignee, such additional documents prepared by Assignee as are reasonably necessary to register and otherwise give full effect to, and to perfect the rights of Assignee under, this Assignment in and to the Patents worldwide, including all documents reasonably necessary to register in the name of Assignee the assignment of the Patents with the United States Patent and Trademark Office and, with respect to any equivalent foreign rights, with any other appropriate foreign or international office or registrar. Assignors will further provide to Assignee, its successors, assigns or other legal representatives, cooperation and assistance at Assignee's reasonable request and Assignee's expense (including, without limitation, the execution and delivery of any and all affidavits, declarations, oaths, samples, exhibits, specimens and other documentation as may be reasonably required) in connection with: (a) preparation and prosecution of any application for registration or renewal of a registration covering any of the Patents; (b) prosecution or defense of any interference, opposition, infringement or other proceedings that may arise in connection with any of the Patents, including, without limitation, testifying as to any facts relating to the Patents assigned herein and this Assignment; (c) obtaining any additional protection for the Patents that Assignee reasonably may deem appropriate that may be secured under the laws now or hereafter in effect in the United States or any foreign country; and (d) implementation or perfection of this Assignment.
5. No Use. Assignors, for themselves and on behalf of their respective successors and assigns, subsequent to the date hereof, covenant not to use, apply for, or register any of the Patents for any purpose in the United States or in any foreign country.

6. Subsequent Payments. If any proceeds of any of the Patents or any payment thereon is for any reason received by Assignors subsequent to the date hereof, Assignors will remit the same to Assignee immediately in the form in which received, together with all necessary assignments and endorsements.
