**ASSIGNMENT OF INTELLECTUAL PROPERTY  
FROM GLOBAL ELECTRIC MOTORCARS, LLC TO  
CHRYSLER GROUP GLOBAL ELECTRIC MOTORCARS LLC**

This ASSIGNMENT OF INTELLECTUAL PROPERTY (this "Assignment"), effective the 10th day of June, 2009, is made and entered into by and between GLOBAL ELECTRIC MOTORCARS, LLC (the "Assignor"), a Delaware limited liability company, and CHRYSLER GROUP GLOBAL ELECTRIC MOTORCARS LLC ("Assignee"), a Delaware limited liability company. Capitalized terms used herein but not otherwise defined herein shall have the meanings set forth in the Master Transaction Agreement (defined below).

WHEREAS, Fiat S.p.A. ("Fiat"), Assignee and Assignor have entered into that certain Master Transaction Agreement, dated as of April 30, 2009, as amended (the "Master Transaction Agreement"), pursuant to which, among other things, Assignor agreed to sell, transfer, convey and deliver at the Closing all of Assignor's right, title and interest in, to and under the Purchased Assets as of immediately prior to the Closing, as more fully described in the Master Transaction Agreement, on the terms and subject to the conditions set forth in the Master Transaction Agreement;

WHEREAS, the Purchased Assets include (a) the patents and patent applications set forth on Schedule A hereto (the "Patents"); and (b) the trademark and service mark registrations, and trademark and service mark applications (including any and all goodwill symbolized by any of the foregoing) set forth on Schedule B hereto (the "Trademarks") (the Patents and Trademarks, collectively, the "Purchased Intellectual Property");

WHEREAS, in connection with the Closing, Assignee and Assignor have entered into that certain Bill of Sale and Assignment and Assumption Agreement, dated as of even date herewith, (the "Bill of Sale") pursuant to which, among other things, the parties consummated the sale, conveyance, assignment, transfer and delivery to Assignee of the Purchased Intellectual Property;

WHEREAS, Assignee, pursuant to the terms of the Master Transaction Agreement and the Bill of Sale, is the successor to the portion of Assignor's ongoing and existing business to which any trademarks and service marks that are the subject of a United States intent-to-use application pertain; and

WHEREAS, Assignor and Assignee now desire to enter into this Assignment for the sole purpose of recording the sale, conveyance, assignment, transfer and delivery to Assignee of the Purchased Intellectual Property with the United States Patent and Trademark Office, the United States Copyright Office and any other applicable Governmental Entity worldwide;

NOW THEREFORE, for good and valuable consideration, including the consideration set forth in the Master Transaction Agreement and the Bill of Sale, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee hereby agree as follows:

1. Assignment. Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee without any restrictions, limitations or reservations, and Assignee hereby accepts the sale, assignment, transfer, conveyance and delivery of, all of Assignor's right, title and interest in and to the Purchased Intellectual Property and any good will arising therefrom or in connection therewith for the United States and for all foreign countries, including any continuations, divisions, continuations-in-part, reissues, reexaminations, extensions or foreign equivalents thereof, all rights therein provided by international conventions and treaties, all rights of priority and renewals, and all pre-assignment and post-assignment income, royalties, damages or payments due or payable, including, without limitation, all claims for damages and other relief by reason of past, present, or future infringement of any of the Purchased Intellectual Property, with the right to sue for and collect the same for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors or assigns (the "Assigned Rights").

2. Due Authorization. Assignor hereby authorizes and requests the Commissioner of Patents of the United States, the Commissioner of Trademarks of the United States, the Librarian of Congress of the United States and any other official of any applicable Governmental Entity worldwide, to record all registrations and applications for registration included in the Purchased Intellectual Property in the name of Assignee and issue any and all registrations from any and all applications for registration included in the Purchased Intellectual Property to and in the name of Assignee.

3. Amendment. This Assignment may not be amended except by an instrument in writing signed by each of the parties hereto.

4. Further Assurances. Assignor and Assignee agree to execute such further documentation and perform such further actions, including without limitation, any actions or documents required by the applicable Governmental Entity or other authority to document, record, or perfect the assignment herein or as may be necessary to protect, secure and vest good, valid and marketable title to the Assigned Rights in Assignee.

5. Governing Law. This Assignment shall be governed by and construed in accordance with the laws of the State of New York, excluding (to the extent permissible by law) any rule of law that would cause the application of the laws of a jurisdiction other than the State of New York.

6. Consent to Jurisdiction. Without limiting any party's right to appeal any order of the Bankruptcy Court, each party hereby irrevocably (i) submits to the exclusive jurisdiction of the Bankruptcy Court, for the purpose of any action or proceeding arising out of or relating to this Assignment, (ii) agrees that all claims in respect to such action or proceeding may be heard and determined exclusively in the Bankruptcy Court and (iii) agrees that it will not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from the Bankruptcy Court, including a motion to dismiss on the grounds of forum non conveniens. Each of the parties hereto agrees that a final judgment in any action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law; provided, however, that if the Bankruptcy Case has closed, the parties agree to unconditionally and irrevocably submit to the exclusive jurisdiction of the United States District

Court for the Southern District of New York sitting in New York County for the resolution of any such claim or dispute. Each of the parties hereto irrevocably consents to the service of the summons and complaint and any other process in any action or proceeding relating to the transactions contemplated by this Agreement, on behalf of itself or its property, by personal delivery of copies of such process to such party. Such service shall be in lieu of any other potentially applicable requirement of service, including, without limitation, the Hague Convention on the Service Abroad of Judicial and Extra-Judicial Documents in Civil or Commercial Matters. Nothing in this Section 6 shall affect the right of any party to serve legal process in any other manner permitted by law.

7. Interpretation. This Assignment has been executed and delivered by the Assignor for the sole purpose of recording the sale, conveyance, assignment, transfer and delivery to Assignee of the Purchased Intellectual Property with the United States Patent and Trademark Office, the United States Copyright Office and any other applicable Governmental Entity. This Assignment is intended to implement the provisions of the Master Transaction Agreement and the Bill of Sale, is expressly subject to the terms and conditions thereof, and shall not be construed to enhance, extend or limit the representations and warranties, rights, obligations or remedies of any party thereunder. In case of any conflict between the terms and conditions of this Assignment and the terms and conditions of the Master Transaction Agreement or the Bill of Sale, the terms and conditions of the Master Transaction Agreement or the Bill of Sale, as the case may be, shall govern.

8. Counterparts. This Assignment may be executed and delivered (including by facsimile transmission) in one or more counterparts, and by the different parties hereto in separate counterparts, each of which when executed and delivered shall be deemed to be an original but all of which taken together shall constitute one and the same agreement.

9. Severability. If any term or other provision of this Assignment is invalid, illegal or incapable of being enforced by any rule of Law, or public policy, then to the maximum extent permitted by Law, all other conditions and provisions of this Assignment shall nevertheless remain in full force and effect.
