**ASSIGNMENT BY INVENTORS**

This Assignment is by **Dominic Flik**, of Frühlingstrasse 1, 85521 Ottobrunn, Germany; and **Peter Respondek**, of Niedergrail 56, 8511 Grelsdorf, Steiermark, Austria (the "Assignors"). The Assignors have invented one or more certain inventions (the "Invention(s)") described in a Design application for Letters Patent of the United States entitled "**TRANSITIONAL USER INTERFACE FOR A PORTION OF A DISPLAY SCREEN**" (the "Application"), filed on **June 1, 2009** as **U.S. Application No. 29/337,873**.

Deutsche Telekom AG, a corporation of Germany having its principal place of business at Friedrich-Ebert-Allee 140, 53113 Bonn, Germany ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights").

Assignors warrant that Assignors have legal right and authority to assign the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment.

Assignors authorize Assignee to make application for such protection in its own name and maintain such protection in any and all countries foreign to the United States, and to invoke and claim for any application for patent or other form of protection for the Rights, without further authorization from Assignors, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

Assignors hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any document that may be required in any country as proof of the right of Assignee to apply for patents or other form of protection for the Rights and to claim the aforesaid benefit of the right of priority.

Assignors request that any and all patents for the Rights be issued to Assignee in the United States and in all countries foreign to the United States, or to such nominees as Assignee may designate.

Assignors hereby agree that, when requested, they shall, without charge to Assignee, but at Assignee's expense, sign all papers, and do all acts that may be necessary, desirable or convenient in connection with the Rights or other obligations under this assignment, including to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights.

This Assignment may be executed in counterparts.
