GRANT OF PATENT SECURITY INTEREST

WHEREAS, GOSS INTERNATIONAL CORPORATION., a Delaware corporation (“Grantor”), owns and uses in its business, and will in the future adopt and so use, various intangible assets, including the Patent Collateral (as defined below); and

WHEREAS, Grantor, GOSS INTERNATIONAL ASIA-PACIFIC, INC., a Delaware corporation, **GOSS GRAPHIC SYSTEMS LIMITED,** a company organized under the laws of England, **GIC REALTY, INC.,** a Delaware corporation and **GOSS INTERNATIONAL AMERICAS, INC.** (f/k/a Heidelberg Web Systems, Inc.) have entered into the Third Amended and Restated Credit Agreement dated as of August 6, 2004 with the financial institutions acting as lenders listed on the signature pages thereof and U.S. Bank National Association, as Collateral Agent (said Third Amended and Restated Credit Agreement as it may be amended, supplemented or otherwise modified from time to time, being the **“Credit Agreement”**; capitalized terms used herein and not defined herein have the respective meanings assigned thereto in the Credit Agreement) pursuant to which Lenders have continued certain commitments, subject to the terms and conditions set forth in the Credit Agreement, to extend certain credit facilities to Borrowers named therein; and

WHEREAS, pursuant to the terms of the Amended and Restated Security Agreement dated as of August 6, 2004 (as amended, supplemented or otherwise modified from time to time, the **“Security Agreement”**), among Grantor, U.S. Bank National Association, as Collateral Agent for and representative of the Lenders (in such capacity, **“Secured Party”**), and the other grantors named therein, Grantor has agreed to continue in favor of Secured Party a perfected security interest in, and Secured Party has agreed to become a secured creditor with respect to, the Patent Collateral;

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, subject to the terms and conditions of the Security Agreement, Grantor hereby continues the grant to Secured Party of a security interest in all of Grantor’s right, title and interest in and to the following, in each case whether now or hereafter existing or in which Grantor now has or hereafter acquires an interest and wherever the same may be located (the **“Patent Collateral”**):

- (i) all rights, title and interest (including rights acquired pursuant to a license or otherwise but only to the extent permitted by agreements governing such license or other use) in and to all patents and patent applications and rights and interests in patents and patent applications under any domestic or foreign law that are presently, or in the future may be, owned or held by such Grantor and all patents and patent applications and rights, title and interests in patents and patent applications under any domestic or foreign law that are presently, or in the future may be, owned by such Grantor in whole or in part (including, without limitation, the patents and patent applications listed in Schedule A), all rights (but not obligations) corresponding thereto to sue for past, present and future infringements and all re-issues, divisions, continuations, renewals, extensions and continuations-in-part thereof (all of the foregoing being collectively referred to as the **“Patents”**); and

(ii) all proceeds, products, rents and profits of or from any and all of the foregoing Patent Collateral and, to the extent not otherwise included, all payments under insurance (whether or not Secured Party is the loss payee thereof), or any indemnity, warranty or guaranty, payable by reason of loss or damage to or otherwise with respect to any of the foregoing Patent Collateral. For purposes of this Grant of Patent Security Interest, the term **“proceeds”** includes whatever is receivable or received when Patent Collateral or proceeds are sold, exchanged, collected or otherwise disposed of, whether such disposition is voluntary or involuntary.

Notwithstanding anything herein to the contrary, in no event shall the Patent Collateral include, and Grantor shall be not deemed to have granted a security interest in, any of Grantor's rights or interests in any license, contract or agreement to which Grantor is a party or any of its rights or interests thereunder to the extent, but only to the extent, that such a grant would, under the terms of such license, contract or agreement or otherwise, result in a breach of the terms of, or constitute a default under any license, contract or agreement to which Grantor is a party; provided, that immediately upon the ineffectiveness, lapse or termination of any such provision, the Patent Collateral shall include, and Grantor shall be deemed to have granted a security interest in, all such rights and interests as if such provision had never been in effect.

Grantor does hereby further acknowledge and affirm that the rights and remedies of Secured Party with respect to the security interest in the Patent Collateral granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

THIS GRANT OF PATENT SECURITY INTEREST SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAW OF THE STATE OF NEW YORK APPLICABLE TO A CONTRACT EXECUTED AND PERFORMED IN SUCH STATE WITHOUT GIVING EFFECT TO THE CONFLICTS OF LAWS PRINCIPLES THEREOF.

[Remainder of page intentionally left blank.]
