Patent Assignment

1) US patents and patent applications

Assignment

Whereas, NEC Corporation, a Japanese corporation, having a place of business at 7-1, Shiba 5-chome, Minato-ku, Tokyo 108-8001, Japan, hereinafter called Assignor, is the owner and assignee of record of the patents listed on the attached Schedule A; and

Whereas, Crescent Moon, LLC, having an address at 4365 Executive Drive, Suite 1100, San Diego, CA 92121, hereinafter called Assignee, desires to acquire the Assignor's entire right, title, and interest in said patents listed on the attached Schedule A

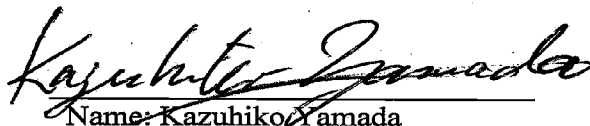

Now therefore, for good and valuable consideration paid to the Assignor, the receipt and sufficiency whereof is hereby acknowledged;

Assignor hereby sells, assigns and transfers to Assignee, its successors and assigns, the entire right, title and interest, including rights to recover for past, present and future causes of action and the right to sue for and collect damages, in and to the patents and patent applications listed on the attached Schedule A, including, without limitation, (a) the right to apply for any of all reissues, reexaminations, extensions, divisions, continuations, continuations-in-part, substitutions and renewals (i) of, and further (ii) in the same country as that of, any of said patents and patent applications (all of the foregoing hereinafter referred to as "Counterparts") and (b) all rights to causes of action and remedies arising from any of said patents and patent applications and said Counterparts for the full life of same;

IN WITNESS WHEREOF, Assignor has executed this Assignment by proper persons duly authorized.
