ASSIGNMENT

Patent application – priority – patent

I, Lars Montelius, ("the Assignor") hereby declare that I have assigned to

Nems AB, 556632-7143 ("the Assignee")
Stora Fiskaregatan 13e
SE-222 24 Lund

my entire right to obtain a patent world-wide on an invention made jointly by

Lars Montelius of Montelinvägen 16, SE-237 35 Bjärred, Sweden and
Sara Ghatnekar-Nilsson of Överlärarevägen 3, SE-224 67 Lund, Sweden,

entitled *An arrangement for detecting resonance frequency shifts*,

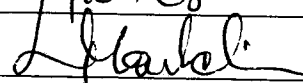

and for which a priority application was filed with the Swedish Patent- and Registrations Office on 26 April 2006, under No. 0600916-1 and an international application was filed on 25 April 2007, under No. PCT/SE2007/000404,

including my right to accrued damages, if any, referring to infringement during the time preceding the grant of the patent, and also including all rights to any further national or regional patents and patent applications of this invention emanating from the priority application.

The Assignor agrees, upon execution of this Assignment, to deliver to the Assignee all documents, correspondence, notes, drawings, models, prototypes and other items relating to the invention and application.

Further, the Assignor agrees that at the cost of the Assignee the Assignor will for a period of 10 years from the date of this Assignment, render all such assistance of which the Assignor is capable as may reasonably be required by the Assignee for the purpose of obtaining patents or other registered protection in respect of the above invention, in support for any action for infringement of any patents or other rights subsisting in respect of or relating to the above invention and in any proceedings in which the validity of any such patents or other rights is put in issue.
