## PATENT ASSIGNMENT

This Assignment is by Alfred Sulpizio ("Assignor"), residing at 1206 Waverly Walk, Philadelphia, PA 19147. Assignor has invented one or more certain inventions (the "Invention(s)") described in Letters Patent of the United States entitled Disposable Lawn Bag (the "Patent"), issued on Dec. 17 2002 as U.S. Patent No. 6,494,619 and based upon US Patent Application No. 09/585,039 (the Application).

Evergreen Innovation Partners I, L.P., with a principal place of business at 2795 S Shoshone St., Unit A, Englewood, CO 80110 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s), the Application, the Patent, and any other patent or application that claims priority to the Application and/or the Patent.

For valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, the Patent, and any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all of the above; the right to file foreign applications directly in the name of Assignee; the right in and to any causes of action related to the Application and/or the Patent; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignor warrants that Assignor owns the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.
