ASSIGNMENT

Identity Of The Patent Application. I am the inventor of a patent application that I am assigning. The patent application I am assigning is entitled Module for an Underground Assembly for Storm Water Retention or Detention which I executed herewith. The patent application has already been filed and it received serial number 29/333,248 and bears a filing date of March 5, 2009.

The Assignee and The Assignment. I assign my patent rights to StormTrap LLC a corporation organized according to the laws of Illinois, having a place of business at 2495 West Bungalow Road; Morris, Illinois 60450 (hereinafter "the Assignee"). The rights I assign are my entire world-wide right, title and interest in the invention or improvements disclosed in the patent application and any and all other applications for United States Letters Patent which I may file, either solely or jointly with others, on the invention or improvements, including all continuations, divisionals, and continuations-in-part, and in any and all United States Letters Patent which may be obtained on any of said applications, and in any reissue or extension thereof. I also assign to the Assignee all rights to any and all Letters Patent of any other country which may be obtained on any of the said applications. I agree to execute, at the request of the Assignee, all documents in connection with any application for Letters Patent therefor.

Payment Received. I am making this assignment in consideration of One Dollar and other good and valuable consideration. I acknowledge the receipt and sufficiency of the consideration.

Authorizations. I request the U.S. Commissioner of Patents and Trademarks and any other patent-granting authority to issue the Letters Patent to the Assignee. I authorize the attorney(s) of record in the application to insert in this assignment document the date and serial number of the application.

Further Acts. I agree, upon the request and at the expense of the Assignee, to execute any divisional, continuation or substitute application for the invention or improvements, and any oath, declaration or affidavit relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon the application. I agree to perform, upon request, any affirmative acts to obtain said Letters Patent and to vest in the Assignee all rights therein, so that the Letters Patent will be held and enjoyed by the Assignee, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by me if this assignment had not been made.

Interference. In the event that any application or Letters Patent that I now assign becomes involved in interference, I agree to cooperate to the best of my ability in the matters of preparing and executing the preliminary statement and giving and producing evidence in support thereof.
