ASSIGNMENT

THIS ASSIGNMENT, is made and entered into on July 28, 2009 by Dr. Mou-Shiung Lin, a resident of Taiwan residing at 28 Ginshan 10th St., Hsinchu, Taiwan (hereinafter referred to as "Assignor"), and Megica Corporation, a corporation organized under the laws of the Republic of China (Taiwan), located and doing business at 47 Park 2nd Road, Suite 301, Science-Based Industrial Park, Hsinchu, Taiwan, ROC (hereinafter referred to together with its successors, heirs, and assigns, as the "Assignee").

WHEREAS, Assignor is the sole and exclusive owner of all patents and patent applications and foreign counterparts thereof listed on the attached Exhibit A (collectively, the "Scheduled Patent Rights") and of any and all inventions and discoveries claimed, described or otherwise disclosed in any of the Scheduled Patent Rights (collectively, the "Inventions");

WHEREAS, Assignor is a party to that certain Share Purchase Agreement, dated as of June 5, 2009, by and among Megit Acquisition Corp., Megica Corporation, the selling shareholders named therein, and Assignor as Seller Representative, and the entry into this Assignment is a condition to the consummation of the transactions contemplated thereby; and

WHEREAS, Assignor is desirous of transferring, and Assignee is desirous of acquiring, all rights, title, and interests in and to the Scheduled Patent Rights, the Inventions and the other Assigned Rights (as defined below) in accordance with the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the foregoing, the sum of One Dollar (\$1.00) paid by Assignee to Assignor, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee, intending to be legally bound, hereby agree as follows:

1. Assignor hereby sells, assigns, transfers and delivers to Assignee, and Assignee hereby accepts, all rights, titles and interests throughout the world in, to, and under all of the following described in Sections 1(i) through (iv) (collectively referred to as the "Assigned Rights"):

(i) all Inventions and any and all modifications and improvements to any such Inventions;

(ii) all Scheduled Patent Rights and any and all patents that may issue based on, correspond to, or otherwise arise from, any such Scheduled Patent Rights, either directly or indirectly;

(iii) any and all other patents, patent applications and other industrial property protections and applications therefor, in each case, that are filed or issue in the United States or in any other jurisdiction that are based on, or that otherwise relate to, any of the Assigned Rights described in Section 1(i) or Section 1(ii), including but not limited to, any and all provisional

applications, non-provisionals, continuations, continuations-in-part, divisions, continuing prosecution applications, PCT applications and other convention applications, requests for continuing examination, substitutes, reissues, reexaminations, extensions, and renewals that issue or are filed in the United States or in any other jurisdiction that are based on, or that otherwise relate to, any of the Assigned Rights described in Section I(i) or Section I(ii); and

(iv) any and all other rights relating to any of the Assigned Rights described in any of Sections I(i) through (iii), including but not limited to, any and all priority rights and rights to claim the benefit of the filing date with respect to any and all such Assigned Rights under the International Convention for the Protection of Industrial Property or under any other convention, treaty, law, rule, regulation, agreement, instrument or understanding.

2. Assignor represents and warrants that (i) as of the execution of this Assignment, except for any rights, titles or interests that have been transferred to Assignee, Assignor is the sole and exclusive owner of all rights, title and interests, in, to, and under all of the Assigned Rights and Assignor has no rights, title or interests in or to any patent applications that have not been assigned to the Company pursuant to this Assignment; (ii) Assignor has the full and exclusive right to convey the entire rights, titles, and interests assigned to Assignee herein, including but not limited to, all such rights, titles and interests relating to the Assigned Rights; (iii) Assignor has not granted any right, title or interest, including but not limited to any license right in, to, or under any of the Assigned Rights to any person or entity, other than to Assignee; (iv) prior to the execution of this Assignment, the Assignor's rights, titles and interests in, to, and under the Assigned Rights had not been otherwise encumbered; (v) there are no rights or interests outstanding inconsistent with the rights, titles and interests granted to Assignee herein; and (vi) Assignor has not and will not execute any agreement or other instrument of any kind, or take any action, that is in conflict with or is otherwise inconsistent with this Assignment. Assignor acknowledges an obligation of assignment of each invention and discovery described in Section I(i) at the time each such invention or discovery, as applicable, was made.

3. Assignor hereby agrees to promptly at any time and from time to time, upon a request by or on behalf of Assignee, execute all papers and documents, take all lawful oaths, and undertake any and all other acts necessary or desirable to enable the Assignee to procure, maintain, enforce and defend any and all of the Assigned Rights and otherwise enjoy the full rights of this Assignment at Assignee's expense, all without compensation to the Assignor other than reimbursement for reasonable out-of-pocket expenses (including for travel) incurred by Assignor and approved by Assignee. Without limiting the foregoing, to ensure that the Assigned Rights shall be held and enjoyed by the Assignee as fully and entirely as possible, Assignor agrees to: (i) communicate to Assignee all facts known to Assignor relating to any of the Assigned Rights; (ii) furnish Assignee with any and all documents, photographs, models, samples, and other physical exhibits in the control of Assignor or his legal representatives, which may be useful for establishing a record of conception, disclosure, or reduction to practice of any of the inventions or discoveries included in any of the Assigned Rights; (iii) execute and deliver to Assignee all patent application documents, including without limitation, petitions, specifications, oaths, assignments, disclaimers, and affidavits in form and substance as may be requested by Assignee; and (iv) generally do everything possible to aid the Assignee in obtaining, maintaining, enforcing and defending the Assigned Rights in the United States of America or any other country of the world as requested to do so by the Assignee, including without limitation, providing evidence and sworn testimony in, or joining

as a party to or otherwise participating in, any judicial, administrative or other proceeding relating to any of the Assigned Rights.

4. Assignor hereby authorizes and requests officials throughout the world whose duty it is to register and record ownership in intellectual property rights, including, without limitation, the Commissioner of the United States Patent and Trademark Office, to record Assignee as the sole and exclusive assignee and owner of any and all of the Assigned Rights. Assignor hereby authorizes and requests that the Commissioner of the United States Patent and Trademark Office and empowered officials in any other country issue any and all letters patent that may be granted upon any of the Assigned Rights to Assignee, for the sole and exclusive benefit of Assignee.

5. This Assignment may be signed in any number of counterparts, each of which shall be an original, with the same effect as if the signatures hereto were upon the same instrument. The undersigned are empowered to act on behalf of their respective party.
