PATENT ASSIGNMENT

This Patent Assignment, dated as of September 29th, 2006 (the “**Effective Date**”), is between EMERSON POWER TRANSMISSION MANUFACTURING, L.P., a Missouri limited partnership (“**Assignor**”), having a principal place of business at 7120 New Buffington Road, Florence, Kentucky 41042, and KOP-FLEX INC., a Delaware corporation (“**Assignee**”), having a principal place of business at 7565 Harmans Road, Hanover, Maryland 21076.

RECITALS

- A. Assignor owns all right, title and interest in and to the patents and patent applications identified in **Appendix A** (collectively the “**Patents**”).
- B. Assignor now desires to assign to Assignee all right, title and interest in and to and the Assignee desires to accept all right, title and interest in and to the Patents.

Therefore, in consideration of the foregoing recitals, one dollar (US \$1.00), and other good and valuable consideration, the complete receipt and sufficiency of which the parties acknowledge, the parties agree as follows:

ASSIGNMENT

Assignor hereby assigns, effective as of the Effective Date, to Assignee, and the Assignee accepts, all right, title and interest, including the right to sue for past infringement and to keep for itself any recovery derived from any such infringement, in and to each of the Patents, together with any foreign counterparts thereof and any continuations, continuations-in-part, divisionals, reissues, reexaminations, and extensions thereof.

The parties have signed and entered into this agreement as of the Effective Date.
