INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment"), is made and entered into as of March 31, 2009, by and between Aspire Medical, Inc., a Delaware corporation (hereinafter called "ASSIGNOR") in favor of Koninklijke Philips Electronics N.V., a corporation organized and existing under the laws of the Netherlands (hereinafter called "ASSIGNEE");

WHEREAS, ASSIGNOR is the owner of record of the entire right, title, and interest in and to the Intellectual Property and Intellectual Property Rights shown in Schedule A attached hereto (the "Assignor Intellectual Property");

WHEREAS, ASSIGNOR and ASSIGNEE have entered into Asset Purchase Agreement dated March 26, 2009 (the "Purchase Agreement"), pursuant to which ASSIGNOR agreed to assign all right, title and interest to the Purchased Intellectual Property to ASSIGNEE;

WHEREAS, ASSIGNOR is the owner of the Intellectual Property and Intellectual Property Rights related to the Assignor Intellectual Property (together, the "Purchased Intellectual Property"). "Intellectual Property" shall mean inventions (whether or not patentable), trade secrets, technical data, databases, customer lists, designs, tools, methods, processes, technology, ideas, product road maps, know-how, source code, product road maps and other proprietary information and materials; (ii) trademarks and service marks (whether or not registered), trade names, logos, trade dress and other proprietary indicia and all goodwill associated therewith; (iii) documentation, advertising copy, marketing materials, websites, specifications, mask works, drawings, graphics, databases, recordings and other works of authorship, whether or not protected by copyright; (iv) computer programs, including any and all software implementations of algorithms, models and methodologies, whether in source code or object code, design documents, flow-charts, user manuals and training materials relating thereto and any translations thereof. "Intellectual Property Rights" shall mean all forms of legal rights and protections that may be obtained for, or may pertain to, the Intellectual Property set forth in clauses (i) through (iv) above in any country of the world, including all letters patent, patent applications, provisional patents, design patents, PCT filings, invention disclosures and other rights to inventions or designs, all registered and unregistered copyrights in both published and unpublished works, all trademarks, service marks and other proprietary indicia (whether or not registered), trade secret rights, mask works, moral rights or other literary property or authors rights, and all applications, registrations, issuances, divisions, continuations, renewals, reissues and extensions of the foregoing.

WHEREAS, ASSIGNEE is desirous of acquiring ownership of the Purchased Intellectual Property and as pursuant to the Purchase Agreement, the parties have agreed that ASSIGNOR shall transfer ownership of the Purchased Intellectual Property to ASSIGNEE;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR does hereby sell and assign unto the ASSIGNEE all right, title, and interest in and to the Purchased Intellectual Property, together with any and all reissues, renewals, continuations, divisions, or extensions thereof that may be issued or granted, and the Purchased Intellectual Property and all derivatives thereof and the right to recover and have damages and profits for past, present, and future infringement, if any.

FURTHER, ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, or its counterpart in such other jurisdictions as may be applicable, to record the assignment of any patents, patent applications or trademarks listed on Schedule 1.1a to ASSIGNEE in accordance with the terms of this Assignment.

No obligation is hereby assumed by ASSIGNOR to maintain, prosecute, enforce, or litigate, file, assert, or defend any patent or patent application or Purchased Intellectual Property.

ASSIGNOR agrees that at any time and from time to time upon the written request of ASSIGNEE, it will execute and deliver such further documents and do such further acts and things as such other party may reasonably request in order to affect the purposes of this Agreement.

ASSIGNOR covenants and agrees to take no action to oppose or otherwise challenge the validity or patentability of the patent application assigned hereunder.

ASSIGNOR represents that it has not assigned, transferred or encumbered the Purchased Intellectual Property and that it has the right and authority to enter into this Assignment and to assign its rights to the Purchased Intellectual Property pursuant to this Assignment.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, the ASSIGNOR has executed this Assignment as of the date first written above.

"ASSIGNOR"
ASPIRE MEDICAL, INC.

By: 
Name: Richard P. Powers
Title: President and Chief Executive Officer

SCHEDULE 1.1a
PURCHASED ASSETS

1. Intellectual Property:

(a) All patents and patent applications as provided below, and all patentable inventions disclosed therein.

(b) All trademarks as provided below

(c) All proprietary information of Aspire related to design, manufacture and testing of devices for sleep apnea including the invention disclosure log, preclinical testing, clinical data, suppliers, and quality system. The proprietary information to be sold will not include financial information or personnel records.

(d) Ownership of the intellectual property rights and proprietary information that is owned by Aspire, including without limitation, the following patents, patent applications and trademarks.

Patents:

Docket #	Country	Title	Serial #	Filed	Status

2. Contracts

None

3. Other Assets

(a) The following Advance system specific equipment and tools (Note: general purpose machine tooling is excluded):

- Press fit fixtures and arbor presses for tissue anchor assembly
- Hand cutters with custom attachments for trimming barbs
