THIS ASSIGNMENT, effective as of the date indicated below, is by and between John M. Barnes, Jr. ("Assignor"), an individual, and DRINK CLIP, LLC ("Assignee"), a limited liability company.

WHEREAS, Assignor is the sole inventor of subject matter claimed in patent application identified in "Schedule A" hereto (hereinafter "Patent"); and

WHEREAS, Assignor desires to transfer his entire right, title and interest in and to said Patent to Assignee, and Assignee desires to acquire Assignor's right, title, and interest in and to said Patent;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and with the intention of being legally bound hereby:

i. Assignor hereby irrevocably grants, sells, transfers, conveys, assigns and sets over to Assignee, its successors and assigns, free of all encumbrances, the entire right, title, and interest in perpetuity in and to said Patent, the inventions claimed or disclosed therein, and all embodiments owned by Assignor, in United States and worldwide, including: (a) all original, reissued, and re-examined letters patent and patents of addition, and renewals and extensions thereof, that originate therefrom in the United States and in foreign countries, and (b) all rights to apply, all rights of priority, all continuation, divisional, continuation-in-part and substitute patent applications that may be filed therefor in the United States and in foreign countries, and (c) all original, reissued, and re-examined letters patents and patents of addition, and renewals and extensions thereof, that may issue from said continuation, divisional, continuation-in-part and substitute applications, and (d) all causes of action, the right to enforce the rights to said Patent through legal or administrative proceedings, the rights to all income derived from said Patent, including the right to all unpaid royalties with respect to the use of any such Patent, and any and all interests, claims, and rights for damages, profits, and other awards by reason of any past infringement, and all other related causes of action, and the right to sue therefor, for Assignee's own use and behalf and for the use and behalf of its successors and assigns or other legal representatives; said Patents to be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made.

ii. Assignor agrees, at the request and expense of Assignee, to perform such proper additional acts, and to execute such additional documents, (a) as are deemed necessary by Assignee or by the governmental agencies having jurisdiction over said Patent to effect the transfer of all of Assignor's right, title and interest therein to Assignee, its successors and assigns, (b) for maintaining and perfecting the Assignee's rights to the Patent, and (c) as may be or become necessary for obtaining, sustaining, re-examining, or reissuing said Patent.
