## ASSIGNMENT

For valuable consideration, receipt and adequacy of which is hereby acknowledged, we, FARHAD G. MIZORI, of San Diego, California, and a citizen of the USA; and STEPHEN M. DERSHEM, of San Diego, California, and a citizen of the USA, (hereinafter referred to as "Assignors") hereby assign to DESIGNER MOLECULES, INC., a California corporation, organized and existing under and by the virtue of the laws of California having a place of business located at 10090 Willow Creek Road, San Diego, CA 92131 and its successors and assigns (hereinafter referred to as the "Assignee"), the entire right, title and interest throughout the world in and to the invention and improvements which are the subject of US Patent No. 7,208,566, Attorney Docket No. 107-01100, issued April 24, 2007; entitled "IMIDE-LINKED MALEIMIDE AND POLYMALEIMIDE COMPOUNDS," and related applications and patents, this assignment including said application, any and all United States and foreign patents granted for any of said inventions or improvements thereof, including all divisions, continuations, reissues, continuations-in-part and extensions thereof, and the right to claim priority based on the filing date of said application and based on the filing date of any provisional application of which said application claims the benefit under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes; and we authorize the Assignee to apply in all countries in our names or in its own name for patents and like rights of exclusion and for inventor's certificates for said inventions and improvements; and we agree for ourselves and our heirs, legal representatives and assigns, without further compensation, upon request to perform such lawful acts, to promptly provide Assignee with all pertinent facts and documents relating to said invention or application as may be known and accessible to us, to testify in any interference or litigation related to said invention or application and to sign such further applications, assignments, Preliminary Statements and other lawful documents as the Assignee may reasonably request to effectuate fully this Assignment. The Assignors further transfer and assign to Assignee all causes of action, rights, and remedies arising under any of the aforementioned applications, patents or like rights of exclusion and inventor's certificates prior to or after the effective date of this Assignment.

The Assignors hereby covenant that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this Agreement.
