Salt Lake City, Utah 84111

ASSIGNMENT NUNC PRO TUNC

We the undersigned, hereinafter collectively referred to as "Assignors", are the inventors of an invention entitled SYSTEMS AND METHODS FOR CONSENT-BASED RECORDING OF VOICE DATA.

Preferred embodiments of said invention are disclosed in a United States patent application executed by us and now identified as File No. 15814.15.1 of the law firm of Workman Nydegger, 1000 Eagle Gate Tower, 60 East South Temple, Salt Lake City, Utah 84111, and filed in the United States Patent and Trademark Office as Serial No. 11/745,391 on May 7, 2007.

The Assignee, Core Mobility, Inc., a corporation of the state of Delaware, having a principal place of business at 1280 Villa Street, Mountain View, California 94041, desires to secure the entire right, title and interest in said application.

Assignors previously executed an Assignment to the Assignee in 2007. The Assignee was identified as "Core Mobility" in this previously executed Assignment, which is recorded in the United States Patent and Trademark Office at Reel 019371 on Frame 0303. Assignors hereby confirm that they intended this previously executed Assignment to transfer rights to the Assignee and that they believe this previously executed Assignment did transfer rights to the Assignee. Nevertheless, to the extent (if any) that the previously executed Assignment was not effective to transfer rights to the Assignee, Assignors do execute this Assignment Nunc Pro Tunc as of the effective dates set forth herein.

In consideration of One Dollar (\$1.00) and other good and valuable consideration paid to Assignors by the Assignee, the receipt and sufficiency of which is hereby acknowledged, ASSIGNORS HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in said invention in the above-identified United States patent application and in all divisions, continuations and continuations-in-part of said application, or reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

The right to file foreign patent applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

Assignors hereby authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on said invention to the Assignee as the owner of the entire interest, for the sole use and behoof of the said Assignee, its successors, assigns and legal representatives.

Assignors hereby agree, without further consideration and without expense to Assignors, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of Assignors to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent applications on said invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent applications.

Cooperation to the best of the Assignors' ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving said invention.

This assignment and agreement shall be binding upon Assignors' heirs and legal representatives and shall be effective as of May 9, 2007 for Assignor Konstantin Othmer and April 8, 2007 for Assignor Brett Wells Nottingham.
