EXECUTION VERSION

PATENT AND DESIGN RIGHT ASSIGNMENT

PATENT AND DESIGN RIGHT ASSIGNMENT dated as of 10 September 2009 made by Samsonite LLC, a Delaware limited liability company ("Assignor"), in favor of Delilah International S.à r.l., a private limited liability company (*société à responsabilité limitée*) with a share capital of USD 20,000.- governed by the laws of Luxembourg, having its registered office at 20, Avenue Monterey, L-2163 Luxembourg ("Assignee").

WHEREAS, pursuant to a Written Consent of the Sole Member of Assignor, dated as of 10 September 2009; Assignor resolved to distribute to Assignee all of Assignor's right, title and interest in and to all of Assignor's intellectual property, including but not limited to all of Assignor's patent applications and issued patents and all applications and registrations for design rights;

WHEREAS, Assignor is a party to that certain Amended and Restated Security Agreement dated 9 September, 2009 (as amended, modified, restated and/or supplemented from time to time, the "Security Agreement") pursuant to which Assignor has granted security over its personal property and fixtures in favor of The Royal Bank of Scotland plc as security agent and trustee (the "Security Agent") for the benefit of the Secured Creditors (as defined therein);

WHEREAS, Assignor is the owner of the patent and design right applications and registered or issued patents and design rights listed in Schedule 1 attached hereto (collectively, the "Patents"); and

WHEREAS, Assignee desires to acquire the Patents;

NOW, THEREFORE, Assignor hereby distributes, transfers, assigns, and otherwise conveys to Assignee, all of Assignor's right, title, and interest in and to each of the Patents, along with all rights to proceeds of the foregoing, including, without limitation, any rights of action of Assignor, and the right to take proceedings and to seek and recover damages and all other available remedies, against third parties for past, present, or future infringement of the Patents.

Assignor and Assignee shall take such actions and shall execute and deliver all such further instruments, documents or other writings that may be necessary or appropriate to carry out and effectuate the provisions of this Assignment and to establish, enforce or defend Assignee's rights in the Patents anywhere in the world.

At the request and expense of Assignee, Assignor shall provide all reasonable assistance which Assignee considers necessary in connection with bringing or defending any proceedings in relation to the Patents.

Assignor hereby acknowledges that its contractual rights under this Patent Assignment are subject to the Security Agreement.

This Patent Assignment shall be governed by the laws of the state of Delaware, without giving effect to any choice of law or conflict of law provisions or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any other jurisdiction other than the State of Delaware.

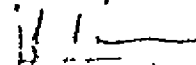

If any provision in this Assignment shall be held to be illegal, invalid or unenforceable, in whole or in part, such provision or part shall to that extent be deemed not to form part of this Assignment but the legality, validity or enforceability of the remainder of this Assignment shall not be affected; and

If any illegal, invalid or unenforceable provision would be legal, valid and enforceable if some part of it were deleted or modified, the provision shall apply with whatever deletion or modification is necessary to give effect to the commercial intention of the parties.
