ASSIGNMENT

Whereas, we, Douglas H. Murdoch of 2060 Woodside Drive, Santa Rosa, CA 95404, and Michael Sturm of 17805 Western Way, Redding, CA 96003, have invented a certain new and useful article identified as a "Carrier for Photographic Equipment such as Cameras and Lenses," the U.S. provisional application no. 60/904,603 for which was filed on March 1, 2007, the international application PCT/US 2008/055194 for which was filed on February 27, 2008 and subsequently entered national phase as U.S. Non-Provisional Application 12/529,141 on August 28, 2009.

(The article and the applications identified above will be referred to below collectively as the "Invention" and the "Applications," respectively.)

Whereas, Think Tank Photo, Inc. ("Assignee") a California corporation whose post office address is now 3636 North Laughlin Road, Suite 170, Santa Rosa, CA 95403, is desirous of acquiring the entire right, title and interest in the Invention and the Applications;

Now, therefore, in consideration of the sum of one dollar (\$1.00) and other good and valuable consideration, the receipt whereof is acknowledged, we, by these presents, sell, assign and transfer to Assignee our entire right, title, and interest in the Invention and modifications and improvements of the Invention, the Applications, including any non-provisional applications, divisions, continuations, and continuations-in-part claiming any priority therefrom, and in and to any and all patents of the United States of America and countries foreign thereto, which may be granted for the Invention and for modifications and improvements of the Invention, and in and to any and all priority rights, Convention rights, and other benefits accruing or to accrue to us with respect to the filing of applications for patents or securing of patents for the Invention and modifications and improvements of the Invention in the United States of America and counties foreign thereto.

We hereby authorize and request the Commissioner for Patents to issue said United States patents to the Assignee (or to its assignees or other successors in interest), as assignee of the entire right, title, and interest in and to the same, for its sole use and benefit, to the full end of the term for which said United States patents may be granted, as fully and entirely as the same would have been held by us had this assignment and sale not been made.

We agree to execute all necessary and lawful future documents, including assignments in favor of Assignee, or its designees as Assignee (or its assignees or other successors in interest) may from time-to-time present to us, in order to perfect title in the Invention and modifications and improvements in the Invention, applications for patents or securing of patents for the Invention and modifications and improvements of the Invention in the United States of America and counties foreign thereto, and patents of the United States of
