We, Roger P. Reid and Bruce D. Saaski, in consideration of good and valuable consideration paid to me, agree to assign, and hereby do assign, transfer and set over to Omnipure Filter Company, Inc., of 1904 Industrial Way, Caldwell, ID 83605 (hereinafter designated as the Assignee), the entire right, title and interest in and to the invention known as **"FILTER BLOCK FOR LIQUID FILTRATION"** (aka Half Filter Blocks (Single-D-Shaped)), for which the undersigned have executed an application for design patent in the United States of America on April 7, 2009, and which design application has been filed in the United States Patent and Trademark Office on March 25, 2009, and given Serial No. 29/334,388. We also agree to assign any and all continuing (continuation, divisional, and continuation-in-part) U.S. applications, PCT applications, and National Phase applications claiming priority of the above design application. We hereby give the office of Pedersen & Company, PLLC permission to fill in the filing dates and serial numbers, when known, of said U.S. continuing applications, PCT applications, and National Phase applications when known: _____

1) We each agree to execute all papers necessary or convenient in connection with each application to protect the invention, and any continuation, continuation-in-part, or divisional applications thereof, and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

2) We each agree to execute all papers necessary or convenient in connection with any interference which may be declared concerning any application relating to the invention, or any continuation, continuation-in-part, or division thereof, and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with any such interference.

3) We each agree to execute all papers and documents and perform any act which may be necessary or convenient in connection with claims or provisions of foreign patent offices, including those operating under the Patent Cooperation Treaty (PCT), International Convention for Protection of Industrial Property, or similar treaties or agreements.

4) We each agree to perform all affirmative acts which may be necessary or convenient to obtain grants of valid patents to the Assignee relating to the invention.

5) We each hereby authorize and request the Commissioner of Patents and Trademarks, and all equivalent foreign patent office officials, to issue any and all Letters Patents resulting from said applications or any continuation, continuation-in-part, or divisional applications thereof, to the said Assignee, as Assignee of the entire interest, and hereby covenant that I have full right to convey the entire interest herein assigned, and that I have not executed, and will not execute, any agreement in conflict herewith.

6) We each hereby grant the Assignee and its duly authorized representatives the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office, and any equivalent foreign patent office, for recordation of this document.

NOW THEREFORE, Assignors hereby forever transfer and assign unto Assignee all right, title, and interest, in and to the subject invention(s); the same to be held and enjoyed by Assignee, its heirs, successors, assigns, and legal representatives, as completely as if the inventions would have been held by Assignor had this assignment not been made, including the right to sue for past infringements.
