ASSIGNMENT

WHEREAS IMMUNEX CORPORATION, (hereinafter, "ASSIGNOR"), a wholly-owned subsidiary of Amgen Inc. and a corporation organized and existing under the laws of the State of Washington, and having a place of business at 51 University Street, Seattle, Washington 98101, is the assignee of interest in inventions set forth in certain U.S. and foreign patents (collectively, "Patent Documents"), listed in Appendix A hereto; and

WHEREAS Celldex Therapeutics, Inc., (hereinafter, "ASSIGNEE"), a corporation organized and existing under the laws of the State of Delaware, and having a place of business at 222 Cameron Drive, Suite 400, Phillipsburg, NJ 08865, is desirous of acquiring all interest in and to said inventions and to the Patent Documents listed in Appendix A.

NOW, THEREFORE, be it known to all whom it may concern:

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Assignor has sold, assigned, transferred and set over, and by these presents does hereby irrevocably sell, assign, transfer and set over, unto Assignee, its successors, legal representatives and assigns, all of Assignor's right, title and interest, as of the Effective Date, in, to and under the issued patents set forth on Appendix A, to be held and enjoyed by ASSIGNEE for its own use and enjoyment, and for the use and enjoyment of its successors and assigns, to the end of the term or terms for which such letters patent may be granted, as fully and entirely as the same would have been held and enjoyed by ASSIGNOR if this assignment and sale had not been made, each of the foregoing including, to the extent applicable, the right to seek damages and/or injunctive relief in the event of infringement of any such issued patent, with the right to sue for and receive the same for Assignee's own account and use, solely to the extent such infringement occurs from and after the Effective Date, and, to the extent set forth above, for the use and on behalf of its successors and assigns.

ASSIGNOR HEREBY authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any official of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as aforesaid, to issue the same to Assignee, its successors, legal representatives and assigns, in accordance with the terms of this Assignment, and hereby grants the attorney of record the power to insert on this Assignment any further identification of the issued patents set forth on Appendix A that is necessary under the rules of the United States Patent and Trademark Office, and the patent office of any country or countries foreign to the United States, for recordation of this Assignment, and agrees, without further consideration, at Assignee's expense, to execute and deliver such other documents that Assignee, its successors and/or assigns may reasonably request that are necessary under the rules of the United States Patent and Trademark Office, and the patent office of any country or countries foreign to the United States, for recordation of this Assignment; provided that Assignee shall be solely responsible for performing all activities in connection with recordation of this Assignment with the United States Patent and Trademark Office, and the patent office of any country or countries foreign to the United States.
