hereinafter referred to as "Assignee", is desirous of acquiring an interest in the said Invention and Applications and in any Letters Patent which may be granted on the same;

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN: Be it known that, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by Assignor, Assignor has sold, assigned and transferred, and hereby does sell, assign and transfer unto the said Assignee, and Assignee's successors and assigns, all right, title and interest in and to the said Invention, the Applications aforesaid and all International Convention priority rights therewith, and in and to any Letters Patent which may hereafter be granted on the same in the United States of America and all countries throughout the world, the said interest to be held and enjoyed by said Assignee as fully and exclusively as it would have been held and enjoyed by said Assignor had this assignment and transfer not been made, to the full end and term of any Letters Patent which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof. Assignor represents and warrants that it has not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor further agrees that it will, without charge to the said Assignee, but at Assignee's expense, cooperate with Assignee in the prosecution of said Applications and any further applications corresponding thereto, execute, verify, acknowledge and deliver all such further papers, including applications for Letters Patent and for the reissue thereof, and instruments of assignment and transfer thereof, and will perform such other acts as Assignee lawfully may request, to obtain or maintain

Letters Patent for said Invention and improvements in any and all countries, and to vest title thereto in said Assignee, or Assignee's successors and assigns.

Signed at Vancouver, BC, Canada, this 24th day of December, 2009.
