INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment"), dated as of December 30, 2009, is made and entered into by INPRO/SEAL CO., a South Dakota corporation ("Inpro/Seal"), ISOTECH OF ILLINOIS, INC., an Illinois corporation ("IsoTech") COJEN HOLDINGS, L.L.C., an Illinois limited liability company ("CoJen", and together with IsoTech and Inpro/Seal, each an "Assignor" and together the "Assignors").

RECITALS

Assignors have entered into that certain Asset Purchase Agreement (the "Purchase Agreement") made as of December 30, 2009, by and among Assignors, WAUKESHA ACQUISITION, LLC, a Delaware limited liability company ("Assignee"), DAVID ORLOWSKI, DIANA COE and DOVER CORPORATION, a Delaware corporation. Capitalized terms used in this Intellectual Property Assignment without definition have the respective meanings given to them in the Purchase Agreement.

Pursuant to said Purchase Agreement, Assignors, agreed to sell, convey, assign, transfer and deliver to Assignee free and clear of all Encumbrances other than Permitted Encumbrances, all Assignors' right, title and interest in and to all the Purchased Intellectual Property.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and intending to be legally bound, Assignors hereby assign, transfer, convey and deliver to Assignee all of Assignors' right, title and interest in and to all Purchased Intellectual Property, including, without limitation the following:

(A) all patents and patent applications in the United States and anywhere in the world (including without limitation those identified in Annex A) and all related inventions, reissues, reexaminations, divisions, renewals, extensions, provisionals, continuations and continuations in part and other proprietary interests therein, including without limitation all patents that may claim priority based on and corresponding to the aforesaid patents (the "Patents");

(B) all registered and unregistered trademarks, service marks, trade names, trade dress, logos, insignias, designs and other proprietary interests therein, and registrations and applications for registration of same in the United States and anywhere in the world (including without limitation those identified in Annex B), together with the good will of the business associated therewith (the "Trademarks");

(C) all registered and unregistered copyrights and applications for registration of copyrights, including all works of authorship, all mask works, mask work registrations and mask work applications, computer software (including source and object code), firmware, developmental tools, algorithms files, records, technical drawings and related documentation, data and manuals, databases and data collections;

(D) all domain names, Internet addresses, uniform resource locators (URLs), and social media user names (including, without limitation those identified on Annex C) and all rights therein (the “Domain Names”);

(E) all inventions (whether patentable or unpatentable and whether or not reduced to practice), know-how, technology, technical data, trade secrets, confidential business information, manufacturing and production processes and techniques, research and development information, financial, marketing and business data, pricing and cost information, business and marketing plans, customer, distributor, reseller and supplier lists and information and other proprietary information of every kind and all other corresponding rights and all copies and tangible embodiments of any of the foregoing;

(F) all right, title, interest, privileges, powers, and benefits of Assignors as licensors and licensees under all license agreements relating to the foregoing Purchased Intellectual Property; and

(G) any and all rights to claim and sue for and recover damages, remedies, income, royalties and payments for past, present and future infringements of any or all of the foregoing, including the right to fully and entirely replace Assignors in all related matters and rights of priority and protection of interests therein under the laws of any jurisdiction.

Assignors hereby acknowledge and agree that Assignee may file this instrument with any appropriate official of any Governmental Authority or registrar to record ownership of the foregoing in Assignee and receive Letters Patent, registrations or the like, as applicable, in Assignee’s own name. Assignors agree that, when requested, by Assignee, its successors, assigns and legal representatives, to provide, execute and deliver to Assignee any and all rightful assignments, deeds, oaths, powers of attorney and other documents (including any documents required to record the chain of title to any Purchased Intellectual Property to Assignors) and provide and do or cause to be done, at Assignee’s expense, such other acts and things as Assignee or its successors, assigns and legal representatives may reasonably request to perfect the assignment, conveyance and transfer of the Purchased Intellectual Property to Assignee.

This Assignment shall inure to the benefit of Assignee and its successors and assigns and shall be binding upon Assignors and their respective successors and assigns.

Unless any Exhibit or Schedule specifies a different choice of law, the internal laws of the State of New York (without giving effect to any choice or conflict of law provision or rule (whether of the State of New York or any other jurisdiction) that would cause the application of laws of any other jurisdiction) govern all matters arising out of or relating to this Assignment.

Assignors have delivered this instrument pursuant to the terms of the Purchase Agreement. This instrument does not modify or affect, and is subject to, the provisions of the Purchase Agreement. In the event of any conflict or inconsistency between the provisions of the Purchase Agreement and the provisions of this instrument, the provisions of the Purchase Agreement will control.

IN WITNESS WHEREOF, the undersigned have executed this Assignment as of the date first written above.
