**ASSIGNMENT**

For good and valuable consideration, the receipt of which is hereby acknowledged, **Dow AgroSciences, LLC** hereinafter referred to as the Assignor, a Delaware corporation having a place of business at 9330 Zionsville Road, Indianapolis, Indiana 46268, hereby:

1. Sells, assigns and transfers to **DFB Biotech, Inc.**, a Delaware corporation having a place of business at 318 McCullough, San Antonio, TX 78215, its successors, assigns and legal representatives, all hereinafter referred to as the Assignee, the Assignor's entire right, title and interest for the United States and all foreign countries, in and to any and all inventions and designs which are disclosed in the patents and patent applications listed in Appendix A, the invention claimed therein, and all Letters Patent that may be granted thereon in the United States or foreign countries, and all non-provisional, divisional, continuing, substitute, renewal, reissue and all other applications for Letters Patent, utility models, industrial designs or similar intellectual property rights which have been or shall be filed in the United States, internationally, and in any foreign country on any of said inventions; and in and to all original and reissued patents which have been or shall be issued in the United States or any other jurisdiction on said inventions, including the right to apply for patent rights in each foreign country and all rights to priority;
2. Agrees that said Assignee may apply for and receive Letters Patent and utility model and industrial design registrations for said inventions in its own name; and when requested, without charge to but at the expense of said Assignee, the Assignor agrees to carry out in good faith the intent and purpose of this assignment, by executing all non-provisional, divisional, continuing, substitute, renewal, reissue, and all other patent, utility model and industrial design applications on any and all said inventions, by executing all oaths, assignments, powers of attorney and other papers, by communicating to said Assignee all facts known to the Assignor relating to said inventions and the history thereof, and generally by doing everything reasonably possible which said Assignee shall consider desirable for aiding in securing and maintaining proper protection for said inventions and for vesting title to said inventions and all applications for patents and all patents on said inventions, in said Assignee;
3. Requests the Honorable Director of the United States Patent and Trademark Office and the Patent Offices of all countries, to issue said Letters Patent to said Assignee; and

4. Covenant with said Assignee that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the Assignor and that full right to convey the same as herein expressed is possessed by the Assignor.

This instrument is executed under seal.
