ASSIGNMENT

THIS ASSIGNMENT is by Dan Sandel and Luis Ramon (hereinafter collectively referred to as "Assignors"). Assignors have invented one or more certain inventions described in a United States Design Patent Application entitled **STEP STOOL WITH HANDLES** (the "Application"), and which was filed on January 14, 2010 as Application No. 29/353,838 (the "Invention(s)"). Assignors authorize the Assignee, identified below, or its representatives, to insert the filing date and application number of the Application when known.

Sandel Medical Industries, LLC, a corporation of the State of Delaware, having a place of business at 19736 Dearborn St., Chatsworth, CA 91311 ("Assignee"), desires to acquire the entire right, title, and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which we acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title, and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignors warrant that they are the sole owner of the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment and to sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of

the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights.

Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.

This Assignment may be executed in counterparts.
