Patent Assignment

For \$1, receipt of which is hereby acknowledged, and other valuable consideration, the below described Assignor, who is the creator of and/or owns certain improvements associated with the Property described below, exclusively assigns, transfers, conveys, and grants all rights, title, and the entire interest in the world in the Property to the below described Assignee, including all future patent applications derived therefrom. At the request and cost of the Assignee, the Assignor shall assist the prosecution of any patent applications to grant and will execute all such documents and do all such acts as may be necessary or proper to obtain the acceptance of the application(s) and for procuring the grant of a patent(s) pursuant to the application(s). Where this document is signed before the filing of an application associated with the Property, Assignor and Assignee each agree to permit the law firm filing this assignment document to write in the application number(s) and/or filing date(s) associated with the Property after the signing of this Patent Assignment.
