Patent Assignment

This Patent Assignment is effective as of the 23rd day of December, 2009 ("Effective Date"), between NOVELX, INC., a corporation incorporated under the laws of California ("Assignor"), and AGILENT TECHNOLOGIES, INC., a Delaware corporation ("Assignee").

WHEREAS, pursuant to the Intellectual Property Matters Agreement dated as of December 23, 2009 between Assignor and Assignee (the "IP Matters Agreement"), Assignor agreed to assign or cause to be assigned to Assignee all of Assignor's right, title and interest in and to certain patent rights.

NOW, THEREFORE, for good and valuable consideration (including that recited in the Asset Purchase Agreement dated December 23, 2009 between Assignor and Assignee), it is hereby agreed by and between the parties as follows:

Capitalized terms used in this Assignment which are not otherwise defined herein shall have the meanings set forth in the IP Matters Agreement.

1. For purposes of this Patent Assignment, "Patent Rights" shall mean and include all of Assignor's right, title, and interest in and to the Transferred Patents as that term is defined in the IP Matters Agreement.

2. Assignor hereby grants, conveys and assigns to Assignee, by execution hereof, the Patents listed on Schedule A hereto (herein "Assigned Patents").

3. Assignor further grants, conveys and assigns to Assignee all its right, title and interest in and to any and all proceeds, causes of action and rights of recovery for past and future infringement or misappropriation of any of the Assigned Patents.

4. Assignor further grants, conveys and assigns to Assignee all its right, title and interest in and to any and all rights of Assignor to obtain reissues, re-examinations, continuations, continuations-in-part, divisions, extensions or other legal protections arising solely from the Assigned Patents that are or may be secured in any relevant jurisdiction anywhere in the world, including (but not limited to) the United States, its territories and possessions, now or hereinafter in effect.

5. The Assigned Patents are conveyed subject to any and all licenses, permissions, consents or other rights that may have been granted by Assignor or its predecessors-in-interest with respect thereto prior to the Effective Date.

6. This Agreement may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original.
