This Agreement pertains to the commercialization and licensing of the invention known at this time on U.S. Patent # 6,247,491 (hereinafter "the Patent") as "Child Proof Cover For Compressed Gas Valves", hereinafter referred to "the Invention", and is executed in accordance with all terms and conditions as specified in the Invention Licensing Action Plan & Agreement and the Invention Licensing Program Operating Agreement for the licensing of the Invention, previously executed by the Parties.

WHEREAS, the Parties have previously entered into a certain *Conditional Patent Assignment Agreement*, dated October 29, 2006 (fully executed by both parties on November 9, 2006), and recorded by the USPTO on 1/16/07 on reel/frame # 018757/0586, and,

WHEREAS, Assignor has become obligated to return and assign all right, title and interest as described in the aforementioned previous Assignment Agreement back to Assignee, and,

WHEREAS, Assignee wishes to obtain all right, title and interest as described in the aforementioned Assignment Agreement(s) back from Assignor, and,

WHEREAS, Assignee and Assignor understand and agree that:

- 1) by executing this Agreement, Assignor will hereby have no further responsibility or obligation whatsoever with regard to the above-referenced US Utility Patent pertaining to the Invention, including but not limited to, conveyance of any periodic patent maintenance fees that may still be due to the USPTO for the Patent, and/or legal prosecution or defense of any patent enforceability and/or infringement that may arise at a future date with regard to the Invention or the Patent.

NOW THEREFORE, in consideration of the mutual promises, covenants, warranties, and other good and valuable consideration set forth herein, The Parties agree as follows:

## 1. Assignment

Assignor hereby assigns to Assignee, its successors, representatives and assigns, all right, title and interest in the Patent, and in all divisions, renewals and continuations thereof, and in any patent(s) granted thereon, including all re-examinations, extensions and re-issues thereof.

## **2. Cause for this Assignment**

Assignee and Assignor understand and agree that this assignment is due, in part or in whole, to Assignor's decision to dissolve its current LLC business form, and re-structure to another business form.

## **3. Assignor's Representations and Warranties**

Assignor hereby represents and warrants that it has the legal right and authority to execute this Agreement. Assignor further represents and warrants that it has not executed any other agreement that would conflict with the terms of this Agreement, nor shall it execute any such agreement in the future.

## **4. Further Actions**

Assignor hereby agrees to execute any additional agreements and to take any further reasonable actions necessary to aid Assignee in obtaining its interest in the Patent and to enforce any and all protections or privileges deriving from the Patent, in the event that such circumstances requiring such aid may arise.

## **5. Governing Law**

This Agreement shall be construed in accordance with, and governed in all respects by, the laws of the State of California, without regard to conflicts of law principles.

## **6. Counterparts**

This Agreement may be executed in several counterparts, each of which shall constitute an original and all of which, when taken together, shall constitute one agreement.

## **7. Severability**

If any part or parts of this Agreement shall be held unenforceable for any reason, the remainder of this Agreement shall continue in full force and effect. If any provision of this Agreement is deemed invalid or unenforceable by any court of competent jurisdiction, and if limiting such provision would make the provision valid, then such provision shall be deemed to be construed as so limited.
