ASSIGNMENT

WHEREAS, Paul J. Sammak of Pittsburgh, Pennsylvania, U.S.A. (herein referred to as "Assignor"), is an/the inventor of the following Invention:

METHODS AND SYSTEMS FOR IMAGING CELLS

("Invention") for which an application for United States Patent was filed on May 13, 2005 and assigned application serial number 11/128,612 (the "Patent Property"); and

WHEREAS, the Invention was previously disclosed to the University of Pittsburgh – Of the Commonwealth System of Higher Education, a non-profit corporation organized and existing under the laws of the Commonwealth of Pennsylvania, with an office at 200 Gardner Steel Conference Center, Thackeray and O'Hara Streets, Pittsburgh, Pennsylvania 15260 (the "University") ("Assignee") and assigned to the University pursuant to Assignor's obligations under the University's Patent Rights and Technology Transfer Policy (the "Patent Policy") and in consideration of Assignor's employment and/or association with the University and the rights provided to Assignor under the Patent Policy and/or said Assignor's employment agreement;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, and intending to be bound hereby, Assignor hereby assigns, sells, transfers, and sets over unto said Assignee, effective immediately, his/her entire right, title, and interest in and to said Patent Property and the inventions and improvements therein disclosed or hereinafter developed for the United States and all foreign countries and any Letters Patent which may issue therefrom in the United States and all foreign countries and all divisionals, reissues, continuations, continuations-in-part, requests for continued examinations, renewals, and/or extensions thereof including all priority rights under the International Convention associated therewith for each country in the Union, said Assignee to have and to hold the interests herein assigned to the full ends of the terms of said Letters Patent and any and all divisionals, reissues, continuations, requests for continued examinations, renewals, and/or extensions thereof, respectively, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment not been made.

And for the consideration aforesaid, Assignor agrees that he/she will communicate to said Assignee or the representatives thereof any facts known to Assignor respecting said inventions and improvements, and will, upon request, but at Assignee's expense, testify in any legal proceedings, sign all lawful papers, execute all divisional, reissue, continuation, continuation in part, request for continued examination, renewal, and/or extension applications, make all rightful oaths, and generally do all other and further lawful acts, deemed necessary or expedient by said Assignee or by counsel for said Assignee, to assist or enable said Assignee to obtain and enforce full benefits from the rights and interests herein assigned.
