PATENT ASSIGNMENT

WHEREAS, Hill-Rom Services, Inc., a Delaware corporation ("Assignor"), having a place of business at 1069 State Route 46 East, Batesville, Indiana 47006-8835 is the owner of the issued patents, and pending patent applications therefor set forth on Attachment A and of the inventions disclosed and claimed therein ("Patents"); and

WHEREAS, Hill-Rom Services Pte. Ltd., a Singapore limited private company ("Assignee"), having a place of business at 1 Yishun Avenue 7, Singapore 768923, is desirous of acquiring the entire worldwide right, title and interest in and to each of said Patents, and in and to the inventions described and claimed therein; and

WHEREAS, Assignor and Assignee are parties to that certain Asset Purchase Agreement, dated as of September 30, 2009 (the "Purchase Agreement"), pursuant to which Assignor agreed to transfer to Assignee and Assignee agreed to accept and assume from Assignor certain assets and obligations of Assignor including, but not limited to the Patents;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby mutually acknowledged, Assignor, by these presents does hereby sell and assign unto Assignee its entire worldwide right, title and interest in and to the above-identified Patents, together with (i) all divisional, continuing, substitute, renewal, reissue and all other applications for patents which have been or shall be filed in the United States and all foreign countries on any of such improvements; (ii) all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such improvements; (iii) the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such application in the United States; and (iv) all rights of action accrued to, and to accrue under and by virtue thereof.

From time to time after the date hereof, at the request of either party hereto, and at the expense of the party so requesting, each of the parties hereto shall execute and deliver to such requesting party such documents and take such other action as such requesting party may reasonably request in order to consummate more effectively the transactions contemplated hereby.

This Assignment may be executed in counterparts, each of which shall be deemed to be an original but all of which together shall be deemed to be one and the same instrument.

Assignor authorizes and requests the U.S. Patent and Trademark Office and the head of any foreign patent office to issue all patent registrations, which it may issue on an application for any patent to Assignees, their successors and assigns, in accordance with this Agreement.

This Assignment is made and effective as of September 30, 2009.

PATENT ASSIGNMENT

WHEREAS, Hill-Rom Services, Inc., a Delaware corporation ("**Assignor**"), having a place of business at 1069 State Route 46 East, Batesville, Indiana 47006-8835 is the owner of the issued patents, and pending patent applications therefor set forth on Attachment A and of the inventions disclosed and claimed therein ("**Patents**"); and

WHEREAS, Hill-Rom Services Pte. Ltd., a Singapore limited private company ("**Assignee**"), having a place of business at 1 Yishun Avenue 7, Singapore 768923, is desirous of acquiring the entire worldwide right, title and interest in and to each of said Patents, and in and to the inventions described and claimed therein; and

WHEREAS, Assignor and Assignee are parties to that certain Asset Purchase Agreement, dated as of September 30, 2009 (the "**Purchase Agreement**"), pursuant to which Assignor agreed to transfer to Assignee and Assignee agreed to accept and assume from Assignor certain assets and obligations of Assignor including, but not limited to the Patents;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby mutually acknowledged, Assignor, by these presents does hereby sell and assign unto Assignee its entire worldwide right, title and interest in and to the above-identified Patents, together with (i) all divisional, continuing, substitute, renewal, reissue and all other applications for patents which have been or shall be filed in the United States and all foreign countries on any of such improvements; (ii) all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such improvements; (iii) the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such application in the United States; and (iv) all rights of action accrued to, and to accrue under and by virtue thereof.

From time to time after the date hereof, at the request of either party hereto, and at the expense of the party so requesting, each of the parties hereto shall execute and deliver to such requesting party such documents and take such other action as such requesting party may reasonably request in order to consummate more effectively the transactions contemplated hereby.

This Assignment may be executed in counterparts, each of which shall be deemed to be an original but all of which together shall be deemed to be one and the same instrument.

Assignor authorizes and requests the U.S. Patent and Trademark Office and the head of any foreign patent office to issue all patent registrations, which it may issue on an application for any patent to Assignees, their successors and assigns, in accordance with this Agreement.

This Assignment is made and effective as of September 30, 2009.
