ASSIGNMENT OF PATENT APPLICATION

WHEREAS, ConocoPhillips Company, hereinafter referred to as "ASSIGNOR," is the owner of the invention described in the patent applications in attached Exhibit A.

WHEREAS, ConocoPhillips Company, located at 600 North Dairy Ashford, MA-1135, Houston, Texas 77079 and Virginia Tech Intellectual Properties, Inc., located at 2200 Kraft Drive, Suite 1050, Blacksburg, Virginia 24060, hereinafter referred to as "ASSIGNEES," are desirous of acquiring a joint interest in the invention and application and in any U.S. Letters Patent and Registrations which may be granted on the same;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign to Assignees all right, title and interest in and to the inventions and applications and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignees and Assignees' successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

AND Assignor further agrees that he will, without charge to Assignees, but at Assignees' expense, (a) cooperate with Assignees in the prosecution of U.S. Patent applications and foreign counterparts on the inventions and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignees, or Assignees' successors and assigns.

FURTHER assignor hereby grants Baker & McKenzie LLP the power to perfect and record this assignment and to insert on Exhibit A any further patent identification that may be necessary or desirable in order to record this assignment.

IN TESTIMONY WHEREOF, a representative of Assignor has signed his name on the date indicated.

IN WITNESS WHEREOF, I have hereunto set my hand this 22 day of Oct., 2009.
