WITNESSETH: That,

WHEREAS, Assignor is an owner of right, title and interest in and to new and useful improvements described in certain patents and patent applications listed in Exhibit A hereto (the "Assigned Patents").

WHEREAS, Nomaco Inc., a corporation duly organized and existing under the laws of the State of North Carolina and having a principal place of business at 501 NMC Drive, City of Zebulon, State of North Carolina, hereinafter referred to as "Assignee," is desirous of acquiring the entire right, title and interest in and to the Assigned Patents, and any and all Letters Patent which shall be granted therefor;

NOW, THEREFORE, To All Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor has sold, assigned, transferred and set over, and hereby does sell, assign, transfer, and set over unto the said Assignee, its successors and assigns, the entire right, title and interest in and to the Assigned Patents and invention and in and to any and all Letters Patent of the United States which may hereafter be granted therefor, and in any and to any and all continuations, continuations-in-part, substitutions, divisions, reissues and/or reexamination grants of said Letters Patent, the same to be held and enjoyed by the said Assignee, for its interest, and for its own use and behalf, and the use and behalf of its successors and assigns, to the full end of the

term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment and sale not been made.

And for the consideration aforesaid, Assignor hereby covenants and agrees to and with the said Assignee, its successors and assigns, that at the time of the execution and delivery of these presents Assignor is the joint and lawful owner of the entire right, title and interest in and to the Assigned Patents and that the same are unencumbered, and that Assignor has good right and lawful authority to sell and convey the same in the manner herein set forth.

And for the consideration aforesaid, Assignor hereby covenants and agrees to and with the said Assignee, its successors and assigns, that Assignor will, whenever its counsel or the counsel of its successors and assigns, learned in the law, shall advise that an amendment, division, continuation, continuation-in-part, or substitution of, or any other proceeding in connection with said Assigned Patents, including interference proceedings, is lawful and desirable, sign all papers and drawings, take all rightful oaths, and do all acts necessary or required to be done for the procurement of valid Letters Patent for the Assigned Patents, or for the reissue of the same without charge to our said Assignee, its successors or assigns, but at its or their expense.

Assignor hereby requests the Commissioner for Patents to issue the Letters Patent in accordance with this instrument.

For the consideration aforesaid, Assignor has sold, assigned, transferred and set over, and by these presents do sell, assign, transfer and set over, unto the said Assignee, its successors, assigns or nominee, the entire right, title and interest in and to any and all Letters Patent for the Assigned Patents which may be granted in countries foreign to the United States and in and to any applications for Letters Patent which may be filed for the Assigned Patents in countries

foreign to the United States and in and to the invention described in the Assigned Patents; and Assignor hereby authorizes and empowers the said Assignee, its successors, assigns or nominees to apply for Letters Patent or other form of protection on the Assigned Patents in its own name or in the name of its successor, assignee, or nominee, in any and all countries where it may desire to file such application and where said application may be filed by another than the inventor; and Assignor hereby covenants and agrees to sign all papers and drawings, take all rightful oaths, and do all acts necessary or required to be done for procurement of Letters Patent, or other form of protection, for said invention or inventions in countries foreign to the United States, and for further investing or confirming the right and title therein to the Assignee, its successors, assignee, or nominee, without charge to our said Assignee, its successor, assignee or nominee, but at its or their expense.
