## ASSIGNMENT BY INVENTORS

This Assignment is by Kevin Allen; Terry Peterson; and Joe C. Fielding (the "Assignors"), residing at 15280 Poppy Meadow Street, Canyon Country, California 91387; 5252 Loleta Avenue, Eagle Rock, California 90041; and 3955 Sunsetridge Road, Moorpark, California 93021, respectively. The Assignors have invented one or more certain inventions (the "Invention(s)") described in a Patent application for Letters Patent of the United States entitled RECHARGEABLE HAND-HELD DEVICES USING CAPACITORS, SUCH AS SUPERCAPACITORS (the "Application"), already filed on October 2, 2009 as U.S. Application No. 12/573,035.

Mason Electric Co., a corporation of Delaware, having its principal place of business at 500 108th Avenue NE, Suite 1500, Bellevue, Washington 98004 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

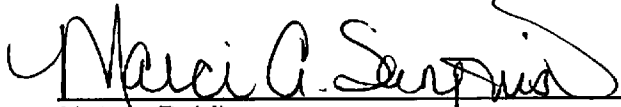

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignors warrant that Assignors own the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.

  
Kevin Allen

Date: February 19, 2010

United States of America  
State of California ) ss.:  
County of Los Angeles )

On this 19th day of February, 2010, before me  
personally came Kevin Allen, to me known to be the individual  
described in and who executed the foregoing instrument, and acknowledged execution  
of the same.

  
Notary Public
