ASSIGNMENT

Assignment made 03/02/, 2010 by Susan Korsmeyer, Executor of the Estate of Stanley J. Korsmeyer, MD ("Inventor") appointed June 17, 2000, County Superior Court No. 05P2106EP, (The "Executor") to the Howard Hughes Medical Institute, a Delaware corporation ("HHMI").

Recitals

WHEREAS, Inventor was an employee of HHMI and, as a condition of his employment, has signed the Agreement appended to HHMI's Policy on Intellectual Property (the "Intellectual Property Agreement");

WHEREAS, pursuant to the Intellectual Property Agreement, Inventor had agreed (a) to assign to HHMI all rights he may acquire in any invention, discovery, improvement, or other intellectual property, whether or not patentable or copyrightable, developed directly or indirectly as a result of a program of research financed by HHMI funds or funds under the control of HHMI (each a "Subject Property") and (b) to execute any agreements that may be desired by HHMI in connection with such assignment;

WHEREAS, Inventor had, alone or with others invented "Reactivation of the p53 Tumor Suppressor Pathway by a Hydrocarbon-Stapled p53 Peptide" which may be the subject of a patent application (the "Invention"), and the Invention is a Subject Property; and

WHEREAS, on behalf of the Inventor and his Estate, Executor seeks to make a formal assignment of Inventor's interest in the Invention to HHMI, and HHMI desires the execution of a formal assignment of all of Inventor's right, title, and interest in the Invention.

NOW, THEREFORE, in consideration of the promises contained in and the acts performed and to be performed pursuant to the Intellectual Property Agreement and of other good and valuable consideration, the receipt of which is hereby acknowledged by Executor, Executor on behalf of Inventor agrees as follows:

1. Assignment. Executor hereby assigns to HHMI, Inventor's entire right, title, and interest in the Invention; any United States patent applications and all corresponding foreign patent applications which are directed to the Invention (including, without limitation, the patent application entitled "Stabilized P53 Peptides and Uses Thereof" filed in the United States Patent and Trademark Office with U.S. Provisional Application Serial Number 60/887,526 filed on January 31, 2007; International Application Serial No. PCT/US2008/052580 filed on January 31, 2008; and U.S. Application Serial No. 12/525,123 filed on July 30, 2009) any and all patents issued therefrom; all United States or foreign divisional and continuation applications based on any of the foregoing, and any and all patents issued therefrom; and all claims which are directed to the Invention and which may be contained in continuation-in-part applications or in patents which issue therefrom.

2. Cooperation. Executor on behalf of the Inventor agrees to execute upon request such further assignments, documents, and other instruments as may be necessary or desirable to assign Inventor's entire right, title and interest in the Invention to HHMI and to

assist HHMI (or others at the direction of HHMI) in applying for, obtaining, and enforcing patents, copyrights, or other rights in the United States and in any foreign country with respect to the Invention.

3. Parties. The terms and provisions of the Assignment shall inure to the benefit of HHMI and its successors and assigns and shall be binding on the Inventor and his heirs, personal representatives and assigns.

4. Warranty. Executor on behalf of the Inventor warrants and represents that Executor has not entered into any assignment, contract, or understanding in conflict herewith, and that there is no other person or entity whose consent is required in order for the Executor to make the assignment contained herein.
