EXHIBIT B
ASSIGNMENT OF PATENTS

This ASSIGNMENT OF PATENTS (this "**Assignment of Patents**") is executed and delivered as of March 24, 2010, by U.S. Genomics, Inc., a Delaware corporation ("**USG**" or "**Assignor**"), in favor of Life Technologies Corporation, a Delaware corporation ("**Assignee**"), pursuant to that certain Patent Purchase and License Back Agreement dated as of March 24, 2010 (the "**Purchase Agreement**"), between Assignor and Assignee. Capitalized terms not otherwise defined herein shall have the respective meanings set forth in the Purchase Agreement.

WHEREAS, Assignor is the owner of the patents and/or patent applications listed on Schedule 1 which is attached hereto and incorporated by this reference (collectively, the "**Patents**"); and

WHEREAS, pursuant to the Purchase Agreement, Assignor has agreed to transfer, and Assignee has agreed to accept, all of the Purchased Patents; and

WHEREAS, the purpose of this document is to confirm, complete and memorialize such transfer of the Patents from Assignor to Assignee;

NOW, THEREFORE, for good and valuable consideration the receipt and sufficiency of which is hereby acknowledged:

Assignor hereby sells, assigns, transfers and sets over unto Assignee, its successors, legal representatives and assigns, Assignor's entire right, title, and interest in, to, and under the Patents and all applications claiming priority thereto and divisions, renewals, continuations and continuations-in-part thereof, and all reissues and extensions thereof; and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which have been and may hereafter be filed for said Patents in any country or countries foreign to the United States, including but not limited to those foreign patents and applications specifically described in Schedule 1, together with the right to file such applications and the right to claim for the same the priority rights derived from said United States application under the laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of industrial property protection, including, without limitation, patents, utility models, inventors' certificates, and designs which may be granted for said invention in any country or countries foreign to the United States and all extensions, renewals and reissues thereof.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any official of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as aforesaid, to issue the same to Assignee, its successors, legal representatives, and assigns, in accordance with the terms of this instrument.

Assignor, at Assignee's expense, agrees to execute and deliver at the request of the Assignee, all papers, instruments, and assignments, and to perform any other reasonable acts the

Assignee may require in order to vest all Assignor's rights, title, and interest in and to the Patents in the Assignee and/or to provide evidence to support any of the foregoing in the event such evidence is deemed necessary by the Assignee, to the extent such evidence is in the possession or control of Assignor.

Nothing contained in this Assignment of Patents shall expand, reduce, modify, or waive any rights or obligations of the Parties under the Purchase Agreement. In the event that any of the provisions of this Assignment of Patents are determined to conflict with the terms of the Purchase Agreement, the terms of the Purchase Agreement shall control.
