ASSIGNMENT

WHEREAS, Hon Hai Precision Industry Co., Ltd., of No. 2, Tzu Yu Street Tu-Chen City, Taiwan, China (name, address and nationality), hereinafter referred to as "ASSIGNOR," was previously the owner of record in certain new and useful inventions as described and set forth in the below-identified United States patent and patent application ("Patent"):

Title of Invention:	Cable Connector Assembly with Strain Relief Member
Filing Date:	July 5, 2006
Issued Date:	December 11, 2007
U.S. Application No.:	11/481,644
U.S. Patent No.:	7,306,479

WHEREAS, APPLE INC. of 1 Infinite Loop, Cupertino, CA 95014, USA (name, address and nationality), hereinafter referred to as "ASSIGNEE," has acquired all interest in the above inventions, application, Patent, and any other patents and registrations that may be granted on the same;

For good, valuable, and sufficient consideration which has already been received and which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign to Assignee all right, title and interest in and to the above invention, applications, and Patent and to all foreign counterparts (including patents, utility model and industrial designs), and in and to any patents and registrations which may hereafter be granted on the same in the United States and all countries throughout the world, and to claim the priority from the application including without limitation any extensions, continuations, continuations-in-part, divisions, reissues, reexaminations, and renewals thereof, or other equivalents thereof, and further, all rights and privileges pertaining to the Patent and any and all patents whether U.S. or foreign that are or may be granted therefrom, including any and all claims and rights to injunctive relief and damages for infringement

(including past infringement) of the Patent and the sole right to sue and recover therefore under such Patent. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made, for the full term of any patents and registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of United States patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer and (c) perform such other acts as Assignee lawfully may request to obtain or maintain patents and registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.
