ASSIGNMENT

This Assignment made by KEVIN M. OW-WING of Castro Valley, California, Assignor,

to ABBOTT DIABETES CARE INC., a Delaware corporation, Assignee, having a place of

business at 1360 South Loop Road, Alameda, California 94502.

WHEREAS, Assignor has invented a new and useful GLUCOSE MONITORING

SYSTEM WITH WIRELESS COMMUNICATIONS for which a nonprovisional patent

application for United States Letters Patent is being filed herewith and for which a provisional

application for United States Letters Patent was filed on May 29, 2009 having Application No.

61/182,460 (herein collectively referred to as the "applications");

WHEREAS, Assignor believes himself to be the original, first, and sole inventor of the

invention disclosed and claimed in said applications for Letters Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire

right, title, and interest in and to said invention, said applications, and any Letters Patent that

may be granted for said invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of

which are hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, the

entire right, title, and interest in and to said invention, said applications, and any Letters Patent

that may be granted for said invention in the United States and throughout the world, including

the right to file foreign applications directly in the name of Assignee and to claim for any such

foreign applications any priority rights to which such applications are entitled under international

conventions, treaties or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no

expense to Assignor, he and his legal representative(s) and assigns will do all lawful acts,

including the execution of papers and the giving of testimony, that may be necessary or desirable

for obtaining, sustaining, reissuing, maintaining, reexamining, or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said applications, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said applications or on any subsequently filed division, continuation, continuation-in-part, or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date written hereinbelow.
