NOW, THEREFORE, in consideration of application and other costs paid by the ASSIGNEE on behalf of ASSIGNOR, and other good and valuable consideration, the receipt and sufficiency of which is acknowledged, ASSIGNOR does hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, my entire right, title and interest in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto in and to said improvements, said United States patent application, any other United States applications, including provisional, non-provisional, divisional, renewal, substitute, continuation, reexamination and reissue applications, based in whole or in part on said United States application or in whole or in part on said improvements, any foreign applications, including international and regional applications, based in whole or in part on any of the aforesaid United States applications or in whole or in part on said improvements, including any applications in any country to which this application claims priority, and/or that claim priority to this application, and in and to any and all letters patent, including extensions thereof, of any country which have been or may be granted on any of the aforesaid applications or on said improvements or any parts thereof;
