ASSIGNMENT

FOR GOOD AND VALUABLE CONSIDERATION, the receipt, sufficiency, and adequacy of which are hereby acknowledged, the undersigned, do hereby:

SELL, ASSIGN AND TRANSFER to Life Technologies Corporation ("Assignee"), a corporation of the State of Delaware, having a place of business at 5791 Van Allen Way, Carlsbad, CA 92008, the entire right, title, and interest for the United States and all foreign countries in and to any and all inventions disclosed in the following non provisional patent application filed in the United States Patent and Trademark Office,

United States Patent application filed on March 26, 2010, Application Serial Number 12/748,158 and is entitled "Systems and Methods for Assessing Images", and

for which a United States Provisional Patent application was filed on Mar 27, 2009, Application Serial Number 61/164,262,

and all divisional, continuation, substitute, renewal, reissue, and all other applications for patent which have been or shall be filed in the United States and all foreign countries on any of such inventions; all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such inventions; and specifically including the right to file foreign applications under the provisions of any convention or treaty and claim priority based on any application referred to herein;

AUTHORIZE AND REQUEST the issuing authority to issue any and all United States and foreign patents granted on such inventions to the Assignee;

WARRANT AND COVENANT that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been or will be made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned;

COVENANT, when requested and at the expense of the Assignee, to carry out in good faith the intent and purpose of this assignment, the undersigned will (1) execute any documents necessary to establish ownership by the Assignee or to obtain issuance of all divisional, continuation, substitute, renewal, reissue, and all other patent applications on any and all such inventions, including the execution of all rightful oaths, declarations, assignments, powers of attorney, and other papers; (2) communicate to the Assignee all facts known to the undersigned relating to such inventions and the history thereof; and (3) generally do everything possible for which the Assignee shall consider desirable for vesting title to such inventions in the Assignee, and for securing, maintaining, and enforcing proper patent protection for such inventions; and agrees that the terms of this agreement is to be binding on the heirs, assigns, representatives, and successors of the undersigned and extends to the successors, assigns, and nominees of the Assignee.

The Assignee hereby accepts the above assignment of rights in the aforementioned inventions, patent(s) and patent application(s) as well as all other rights assigned by this assignment.

TO BE BINDING on the heirs, assigns, representatives, and successors of the undersigned and extend to the successors, assigns, and nominees of the Assignee.
