ASSIGNMENT OF INVENTIONS AND PATENTS

WHEREAS, Gerald T. Mearini, (hereinafter called "Assignor"), is an owner of the patents, patent applications, and inventions shown in Exhibit A; and

WHEREAS, Assignor has agreed to contribute his entire interest in and to all inventions disclosed in the patents shown in Exhibit A to Teraphysics Corporation, a Delaware corporation, having a place of business at 110 Alpha Park, Highland Heights, Ohio 44143 (hereinafter called "Assignee").

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) and other good and valuable considerations to Assignor paid by said Assignee, the receipt and sufficiency whereof is hereby acknowledged, Assignor does hereby sell, assign, set over and transfer unto said Assignee, its successors, legal representatives and assigns, his entire right, title and interest in the United States and throughout the world in and to all said patents, patent applications and inventions disclosed and/or claimed in the patents or patent applications described in Exhibit A, including all priority rights for other countries arising from said patents or patent applications; and in and to all substitutions, divisions, continuations and continuation-in-part thereof; and in and to all Letters Patent, United States and foreign, that may be granted from and for said applications, patents and inventions; and in and to all extensions, renewals, and reissues thereof; and all rights under the International Convention for the Protection of Industrial Property.

Assignor further agrees to cooperate with the Assignee in every way possible and to do all affirmative acts, and to execute all papers, without charge to Assignee, which counsel for Assignee shall advise are necessary and/or desirable in connection with said applications including, without limitation, such other documents and instruments of transfer as may be required to register this assignment with the United States Patent Office and the execution of separate assignments in connection with such applications, claims or provisions of the International Convention for Protection of Industrial Property or similar agreements.

Assignor hereby authorizes and requests the Commissioner of Patents to issue any and all Letters Patent of the United States resulting from said application or any division or divisions or continuing applications thereof to said Assignee, as Assignee of his entire interest, and hereby covenants he has full right to convey the interest herein assigned, and that he has not executed and will not execute, any agreement in conflict herewith.

The undersigned hereby grants to Michael D. Wieder and L. Lawton Rogers, III, No. 24,302, the power to insert on this assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent Office for recordation of this document.
