Assignment Of Patent Rights and Evidence of Transfer

This Assignment of Patent Rights and Evidence of Transfer (for convenience, the "**Assignment**"), effective as of March 25, 2010 (the "**Effective Date**") is between (i) Oxford Superconducting Technology Limited Partnership ("**OST**"); (ii) Oxford Instruments America, Inc., a Massachusetts business corporation ("**OIA**"); (iii) Oxford Instruments OST Holdings LLC, a Massachusetts limited liability company ("**Holdings**"); and (iv) Oxford Instruments OST Asset Co LLC, a Delaware limited liability company ("**Asset Co**").

1. **Definitions.**

1.1. **Patents.** The term "**Patents**" means the U.S. patents and patent applications listed on the attached Schedule 1. This Assignment incorporates and includes Schedule 1.

1.2. **Transferors.** The term "**Transferors**" means those entities that transfer or assign Patent rights under this Assignment, consisting of (i) OST, (ii) OIA, and (iii) Holdings.

2. **Transfer from OST to Holdings and OIA.** OST states and confirms that, before or simultaneously with the Effective Date of this Assignment, and for good and valuable consideration (the receipt and sufficiency of which is hereby acknowledged), OST distributed to OIA and to Holdings all of OST's right, title, and interest in and to the Patents, including OST's right, title, and interest in and to (i) all patents and patent applications claiming benefit, in whole or in part, of any of the filing or priority dates of the Patents, including, but not limited to, extensions, divisionals, continuations, continuations-in-part, reissues, reexaminations, substitutions and foreign counterparts of any of the Patents; and (ii) all rights to causes of action and remedies related thereto (including, without limitation, the right to sue for past, present or future infringement of rights related to the foregoing).

3. **Subsequent Transfer from Holdings to OIA.** Holdings states and confirms that, simultaneously with its receipt from OST of the rights specified in Section 2 (Transfer from OST to Holdings and OIA), and for good and valuable consideration (the receipt and sufficiency of which is hereby acknowledged), Holdings distributed to OIA all of Holding's right, title, and interest in and to the Patents, including all right, title, and interest that Holdings received from OST in the transaction set out in Section 2 (Transfer from OST to Holdings and OIA). Holdings confirms that Holding's distribution of such rights to OIA included Holdings' right, title, and interest in and to (i) all patents and patent applications claiming benefit, in whole or in part, of any of the filing or priority dates of the Patents, including, but not limited to, extensions, divisionals, continuations, continuations-in-part, reissues, reexaminations, substitutions and foreign counterparts of any of the Patents; and (ii) all rights to causes of action and remedies related thereto (including, without limitation, the right to sue for past, present or future infringement of rights related to the foregoing).

4. **Subsequent Assignment from OIA to Asset Co.** For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, as of the Effective Date (but after the transactions set out in Section 2 (Transfer from OST to Holdings and OIA) and Section 3 (Transfer from Holdings to OIA)), OIA hereby sells, assigns, transfers and conveys to Asset Co all of OIA's right, title and interest in and to the Patents, including the rights OIA obtained in the transactions specified in Section 2

(Transfer from OST to Holdings and OIA) and Section 3 (Transfer from Holdings to OIA). It is agreed and understood that OIA's assignment to Asset Co includes OIA's right, title, and interest in and to (i) all patents and patent applications claiming benefit, in whole or in part, of any of the filing or priority dates of the Patents, including, but not limited to, extensions, divisionals, continuations, continuations-in-part, reissues, reexaminations, substitutions and foreign counterparts of any of the Patents; and (ii) all rights to causes of action and remedies related thereto (including, without limitation, the right to sue for past, present or future infringement of rights related to the foregoing).

5. **Acceptance of Assignment.** Asset Co hereby accepts the assignment and transfer of the Patents and rights set out in Section 4 (Subsequent Assignment from OIA to Asset Co).
6. **Authorization.** The Transferors authorize Asset Co to apply in all countries in the Transferor's name or in Asset Co's own name for patents, utility models, design registrations and like rights of exclusion, and for inventors' certificates, relating to the Patents and the inventions disclosed therein; and each Transferor agrees for itself and its respective legal representatives and assigns, without further compensation to perform such lawful acts and to sign such further applications, assignments, Preliminary Statements and other lawful documents as Asset Co may reasonably request to effectuate fully this Assignment.

In Witness Whereof, each party has caused this Assignment to be duly executed by an authorized officer as of the Effective Date.
