PATENT RELEASE OF SECURITY INTEREST

THIS PATENT RELEASE (the "Patent Release") dated as of May 14, 2010 is made by Credit Suisse AG, Cayman Islands Branch, as Collateral Agent (the "Collateral Agent") acting for the benefit of Secured Parties. Capitalized terms used in this Agreement and not otherwise defined herein have the meanings specified in the Security Agreement referred to below.

A. Reference is made to the Credit Agreement, dated as of March 28, 2007 (as amended, amended and restated, supplemented or otherwise modified through the date hereof, the "Existing Credit Agreement"), among Ikaria, Inc., a Delaware corporation ("Holdings"), Ikaria Acquisition Inc., a Delaware corporation (the "Borrower"), the Lenders from time to time party thereto, and Credit Suisse AG, Cayman Islands Branch, as administrative agent (in such capacity, the "Administrative Agent") and Collateral Agent.

B. Reference is made to the Guarantee and Collateral Agreement, dated as of March 28, 2007 (as amended, amended and restated, supplemented or otherwise modified through the date hereof, the "Security Agreement"), made by the Borrower, Holdings, the Subsidiaries of Holdings from time to time party thereto and the Collateral Agent. Pursuant to the Security Agreement, the Borrower, Holdings, Ikaria Research, Inc. (formerly known as Ikaria, Inc.), a Delaware corporation ("Research"), and INO Therapeutics, LLC, a Delaware limited liability company ("INO" and together with Research, the "Patent Grantors"), entered into a Patent Security Agreement, dated as of March 28, 2007 (together with all amendments and modifications, if any, from time to time thereafter made thereto, the "Patent Security Agreement"), pursuant to which the Patent Grantors granted a security interest to the Collateral Agent, for the benefit of the Secured Parties, in, among other things, all right, title and interest of the Patent Grantors in certain patents, patent applications and patent licenses set forth on Schedule I hereto (the "Patents"), which security interest was recorded with the United States Patent & Trademark Office as of April 02, 2007 at Reel/Frame 019094/0784.

C. The Loan Document Obligations under the Existing Credit Agreement have been indefeasibly paid in full and, pursuant to Section 7.15 of the Security Agreement, all security interests granted by the Security Agreement have been terminated.

D. The Patent Grantors have informed the Collateral Agent of their desire to obtain the release of all right, title and interest of the Secured Parties in and to the Patents.

Accordingly, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Collateral Agent hereby releases all right, title and interest (including, without limitation, security interests) of the Collateral Agent and the Secured Parties in and to the Patents. The Collateral Agent hereby assigns, transfers and sets over to the Patent Grantors all right, title and interest that the Collateral Agent and the Secured Parties may have in or to the Patents under the Security Agreement and the Patent Security Agreement, together with the goodwill of the business symbolized by such Patents.

The Collateral Agent agrees to perform all further acts and execute and deliver, at the Borrower's expense, all further documents and/or instruments that may be necessary to carry out the provisions of this Patent Release. To the extent that any other filings with any other governmental authority have been made with respect to any of the Patents, the Collateral Agent will execute and deliver, at the Borrower's expense, a reasonable release or other instrument that will terminate any such filing and/or release any interests conveyed therein.
