**PATENT ASSIGNMENT**

WHEREAS, Compound Photonics U.S. Corporation ("Assignor") is the owner of the United States and foreign patents and patent applications identified on Exhibit A attached hereto; and

WHEREAS, Compound Photonics Limited ("Assignee"), desires to acquire the entire right, title and interest in and to the United States and foreign patents and patent applications identified on Exhibit A and in and to the inventions described and claimed therein (hereinafter "Patents");

In exchange for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby assigns to Assignee all of Assignor's right, title and interest in and to the Patents including any and all divisionals, continuations, re-examinations, renewals, provisionals, continuations-in-part, or reissues which are owned by Assignor and described as such in Exhibit A, including any unlisted foreign patents and applications that claim priority either to one of the listed patents or to another patent application to which one of the listed patents claim priority, and all rights to seek and collect past and future damages and other relief for infringement of the Patents, and all proceeds thereof.

This Assignment Agreement may be executed in one or more counterparts, all of which shall be considered one and the same agreement. The signatures from each counterpart may be combined with a copy of the Assignment Agreement to constitute the entire agreement regarding this subject matter.
