OP \$40.00 12594324

ASSIGNMENT

(U.S. National Stage Under 35 U.S.C. 371)

For valuable and sufficient consideration from **Johnson Controls Technology Company** (hereinafter referred to as "Assignee"), a Michigan corporation having its principal place of business at 915 East 32nd Street, Holland, Michigan 49423, receipt of such consideration being hereby acknowledged, I/we,

Robert Arnould of **Sardon, France**
David Marchand of **Vibraye, France**

hereby sell and assign and convey unto Assignee, its successors and assigns, my/our entire right, title and interest:

(1) in and to an invention entitled "**DEVICE FOR THE CONTACT AND ATTACHMENT OF AN ELECTRIC COMPONENT IN A MOTOR VEHICLE**" for which I/we have executed a U.S. Patent Application that benefits from the priority of a PCT Patent Application filed on October 1, 2009, which received Application No. PCT/EP2008/002631, and which, itself claims priority of Application No. DE 10 2007 016 166.4 filed on April 2, 2007;

(2) in and to said PCT Patent Application, United States Patent Application and/or United States Provisional Application(s) and in and to all other patent applications now or hereafter filed in the United States and countries foreign to the United States (including divisional, continuation, reexamination, and reissue applications, and legal equivalents thereof) based upon said invention, and in and to the patent or patents granted thereon or issued therefrom, including reissues or the like thereof, if any, to the full end of the term or terms for which said patent or patents may be granted or issued.

I/we authorize and request that any attorney associated with **PTO Customer No. 75576** may insert additional information identifying said PCT Patent Application, United States Patent Application and/or United States Provisional Application(s) after execution of this agreement;

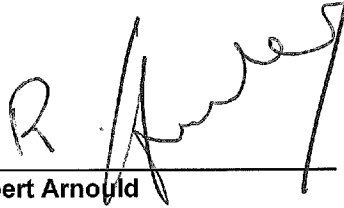

I/we agree that any patent applications of any countries foreign to the United States which may be filed under any applicable international treaties and/or conventions based upon said invention(s) shall be filed in the name of Assignee with the right to claim priority to any earlier filed applications based upon said invention(s).

I/we hereby further agree that I/we shall, upon demand of Assignee, its successors or assigns, and without further consideration to me/us, execute any and all papers that may be necessary, or deemed by Assignee, its successors or assigns, to be necessary, to be a complete fulfillment of the intent and purposes of this Assignment, it being understood that any expense incident to the execution of such papers shall be paid by Assignee, its successors and assigns, and not by me/us.

I/we hereby further agree and authorize the Commissioner of Patents and Trademarks of the United States and all other appropriate government officials for applicable countries foreign to the United States to issue any and all above-identified patents to Assignee.
